from Blue Grass Airport Lexington Kentucky The flight crew was instructed to take off from runway 22 but instead lined up
the airplane on runway 26 and began the takeoff roll The airplane ran off the end of the runway and impacted the airport
perimeter fence trees and terrain The captain flight attendant and 47 passengers were killed and the first officer received
serious injuries The airplane was destroyed by impact forces and postcrash fire The flight was operating under the provisions
of 14 Code of Federal Regulations Part 121 and was en route to Hartsfield Jackson Atlanta International Airport Atlanta
Georgia Night visual meteorological conditions prevailed at the time of the accident The National Transportation Safety
Board determines that the probable cause of this accident was the flight crewmembers failure to use available cues and aids
to identify the airplane s location on the airport surface during taxi and their failure to cross check and verify that the
airplane was on the correct runway before takeoff Contributing to the accident were the flight crew s nonpertinent
conversation during taxi which resulted in a loss of positional awareness and the Federal Aviation Administration s FAA
failure to require that all runway crossings be authorized only by specific air traffic control ATC clearances The safety issues
discussed in this report focus on the need for 1 improved flight deck procedures 2 the implementation of cockpit moving map
displays or cockpit runway alerting systems 3 improved airport surface marking standards and 4 ATC policy changes in the
areas of taxi and takeoff clearances and task prioritization Safety recommendations concerning these issues are addressed to
