Numerous important issues arise in relation to the health of and healthcare for and by migrants. Much commentary on the migrant crisis and healthcare has focused on the allocation of resources with less discussion of the needs of and provision for migrants. Presenting a comparative perspective on the UK and Germany, this volume increases knowledge of a broad spectrum of challenges in healthcare provision for migrants. Migration is deliberately understood in its broadest sense and includes not only migrant patients but also migrant healthcare professionals. The book's content is diverse, with insights from healthcare ethics, healthcare law, along with clinical perspectives as well as perspectives from the social sciences. The collection provides normative reflections on current issues and presents data from empirical studies. By informing researchers, politicians, and healthcare practitioners about approaches to challenges arising in healthcare provision for migrants, the collection seeks to inform the development of adequate and ethically appropriate strategies. **Index Medicus**, 2003-07.
