Studying Postgraduate Healthcare: A Pre-Reader Dr Catherine Hayes, Dr John Fulton, 2015-05-14 Written by academics with long experience of dealing with new postgraduate healthcare students this helpful guide provides a much needed overview of the practical considerations that should be taken into account when embarking on any postgraduate healthcare course The authors have designed the book to be an easy read for those developing their thinking about study in general and studying at master s and doctoral level specifically The chapters can also be read independently and readers can dip into them as they wish Above all the authors hope this book will show that educational institutions care about their students in a holistic sense as human beings This is

significant when we consider the huge impact that undertaking an educational journey in postgraduate healthcare can have on everyday life and the accompanying need to manage the changes it brings. They strongly believe that long term education should be seen as an integral part of life and not something that exists separately from the individual's normal existence. Contents include Managing expectations in postgraduate education, Managing work life balance in postgraduate academic study, Postgraduate level study skills, Work based learning in postgraduate health curricula, Constructing a thesis or dissertation, Disseminating academic work.

ACCCN's Critical Care Nursing - E-Book Leanne Aitken, Andrea Marshall, Wendy Chaboyer, 2015-10-01. With each edition ACCCN's Critical Care Nursing has built on its highly respected reputation. Its contributors aim to encourage and challenge practising critical care nurses and students to develop world class critical care nursing skills in order to ensure delivery of the highest quality care. Endorsed by the Australian College of Critical Care Nurses, ACCCN this 3rd edition presents the expertise of foremost critical care leaders and features the most recent evidence based research and up to date advances in clinical practice, technology, procedures and standards. Expanded to reflect the universal core elements of critical care nursing practice, authors Aitken, Marshall and Chaboyer have retained the specific information that captures the unique elements of contemporary critical care nursing in Australia, New Zealand and other similar practice environments. Structured in three sections, ACCCN's Critical Care Nursing 3e addresses all aspects of critical care nursing including patient care and organisational issues while highlighting some of the unique and complex aspects of specialty critical care nursing practice such as paediatric considerations, trauma management and organ donation. Presented in three sections: Scope of Critical Care, Principles and Practice of Critical Care Speciality Practice. Focus on concepts that underpin practice: essential physical, psychological, social and cultural care. New case studies elaborate on relevant care issues. Practice tips highlight areas of care particularly relevant to daily clinical practice. Learning activities support knowledge, reflective learning and understanding. Additional case studies with answers available on evolve. NEW chapter on Postanaesthesia recovery. Revised coverage of metabolic and nutritional considerations for the critically ill patient. Aligned with the NEW ACCCN Standards for Practice.
