Aliens George Edgar Slusser, 1987 How and when does there come to be an anthropology of the alien? This set of essays written for the eighth J. Lloyd Eaton Conference on Fantasy and Science Fiction is concerned with the significance of that question. Anthropology is the science that must designate the alien if it is to redefine a place for itself in the universe according to the Introduction. The idea of the alien is not new. In the Renaissance Montaigne's purpose in describing an alien encounter was excorporation: man-kind was the savage because the artificial devices of nature controlled him. Shakespeare's version of the alien encounter was incorporation: his character of Caliban is brought to the artificial political world of man and incorporated into the body politic. The essays in this volume show in their general orientation that the tribe of Shakespeare still in literary studies at least outnumbers that of Montaigne. These essays show the interrelation of the excorporating possibilities to the internal soundings of the alien encounter within the human mind and form. This book is divided into three parts. Searchings: The Quest for the Alien includes The Aliens in Our Mind by Larry Niven, Effing the Ineffable by Gregory Benford, Border Patrols by Michael Beehler, Alien Aliens by Pascal Ducommun, and Metamorphoses of the Dragon by George E. Slusser. Sightings: The Aliens among Us includes Discriminating among Friends by John Huntington, Sex Superman Sociobiology by Joseph D. Miller, Cowboys and Telepaths by Eric S. Rabkin, Robots by Noel Perrin, Aliens in the Supermarket by George R. Guffey, and Aliens R U S by Zoe Sofia. Soundings

Man as the Alien includes H G Wells Familiar Aliens by John R Reed Inspiration and Possession by Clayton Koelb Cybernauts in Cyberspace by David Porush The Human Alien by Leighton Brett Cooke From Astarte to Barbie by Frank McConnell and An Indication of Monsters by Colin Greenland **Robo Sapiens** Peter Menzel, Faith D'Aluisio, 2000 Information about intelligent robots and their makers including photographs interviews behind the scenes information and technical data about machines that is easy to understand
