Assessing Learners' Competence in L2 Chinese 杨路 Yang Lu, 2022-12-30 Assessing Learners Competence in L2

Chinese is the first book intended to answer the question on whether existing standardised and classroom based assessments can reflect learners competence in L2 Chinese The Chinese language has enjoyed increasing global popularity amongst

second foreign language learners and has become one of the major modern languages for school and university curricula. However, to many teachers and researchers it has been difficult to answer with confidence whether the existing standardised and classroom tests can reflect learners' competence in L2 Chinese. This book defines and redefines the constructs for assessing L2 Chinese competence that have been overlooked or misplaced because of the unique features of the Chinese language. The book provides theoretical backgrounds and practical methodologies for assessing competence in L2 Chinese. Trainees and experienced teachers of Chinese as a second language will find invaluable guidelines and ready-made workshop materials for postgraduate teacher training programmes. Researchers and academics will find innovative frameworks on the subject for further studies and debates.

State Assessment Policy and Practice for English Language Learners Charlene Rivera, Eric Collum, 2014-05-12. *State Assessment Policy and Practice for English Language Learners* presents three significant studies each examining a different aspect of states' strategies for including English language learners in state assessments: an Analysis of State Assessment Policies Regarding Accommodations for English Language Learners, a Survey and Description of Test Translation Practices, and an Examination of State Practices for Reporting Participation and Performance of English Language Learners in State Assessments. With the rise in population of English language learners and the subsequent stepped-up legislative focus on this student population over the past decade, states have been challenged to include English language learners in state assessment programs. Until now, the little data available on states' policies and practices for meeting this challenge has been embedded in various reports and professional journals and scattered across the Internet. This volume offers for the first time a focused examination of states' assessment policies and practices regarding English language learners. The three studies were supported by OELA, the U.S. Department of Education's Office of English Language Acquisition, Language Enhancement, and Academic Achievement for Limited English Proficient Students. *State Assessment Policy and Practice for English Language Learners* is of interest to researchers and professionals involved with the assessment of English language learners, state and district-level policy makers and academics, teacher educators, and graduate students in a number of fields including educational and psychological assessment, testing, and measurement, bilingual education, English as a second language, and second language acquisition.

Conducting Second-Language Reading Research Elizabeth B. Bernhardt, Michael L. Kamil, 2022-05-24. This is the first hands-on methods guide for second language L2 reading research. The authors expertly and critically situate L2 reading and literacy as a multivariate interactive process and define terms, concepts, and research tools in connection with theory and a rich body of past empirical work with lessons to learn and pitfalls to avoid. They concretely detail how to design empirical studies, collect data, and analyze findings in this important area. Authored by world experts on first language L1 and L2 reading, this book provides a comprehensive, critical, theory-driven review of methods in L2 reading research, offering a step-by-step guide from research design to study execution and data analysis. With useful pedagogical features and a unique database of L2 reading

studies from around the world over three decades this will be an invaluable resource to students and researchers of second language acquisition applied linguistics education and related areas
