Schumpeterian Perspectives on Innovation, Competition and Growth Uwe Cantner,Jean-Luc Gaffard,Lionel Nesta,2009-07-25 Recent developments in economics have gone from the recognition of the importance of innovation for growth and the exploration of innovation mechanisms to the incorporation of the results of the previous research into economic models An important lesson to be drawn from all this research is that a purely macro based analysis of growth is not enough The various mechanisms of innovation creation and diffusion the importance of agent heterogeneity of market selection processes of the internal organization of the firm and of organizational routines and the obsolescence and the consequent emergence of new types of capital goods are a few examples of micro economic phenomena that contribute decisively to macro economic development The papers in this volume approach those issues from a Schumpeterian point of view and tackle issues like the growing importance of knowledge and human capital increasing returns and path dependence the role of variety in economic growth competition and industry evolution

Hegemonic Mimicry

Kyung Hyun Kim,2021-09-13 In Hegemonic Mimicry Kyung Hyun Kim considers the recent global success of Korean popular culture the Korean wave of pop music cinema and television which is also known as hallyu from a transnational and transcultural perspective Using the concept of mimicry to think through hallyu s adaptation of American sensibilities and genres he shows how the commercialization of Korean popular culture has upended the familiar dynamic of major to minor cultural influence enabling hallyu to become a dominant global cultural phenomenon At the same time its worldwide popularity has rendered its Koreanness opaque Kim argues that Korean cultural subjectivity over the past two decades is one steeped in ethnic rather than national identity Explaining how South Korea leaped over the linguistic and cultural walls surrounding a supposedly minor culture to achieve global ascendance Kim positions K pop Korean cinema and television serials and even electronics as transformative acts of reappropriation that have created a hegemonic global ethnic identity
