 of how European banks manage asset liability mismatch risk from both a practitioner and supervisory perspective After a  
 prolonged period of zero interest rate policy ZIRP by central banks around the world the period from Q1 2022 to Q2 2023 has  
 seen the largest fastest and most widespread increase in interest rates since the 1980s with 1 year euro yields rising by more  
 than 400 bp The recent market turmoil has exposed the increased vulnerability of banks particularly those with significant  
 exposures to long term fixed income assets fueled by shorter term less stable funding This challenging interest rate  
 environment reinforces the strategic importance of asset liability management ALM for banks Indeed a bank s survival now  
 depends more than ever on prudent ALM This book introduces the most common components of interest rate risk  
 management within a bank s asset liability management framework including the concepts of economic value of equity EVE  
 net interest income NII funds transfer pricing FTP and the replicating model In addition to bridging the gap between widely  
 used general interest rate risk management techniques in the fixed income area and what is best practice in European banks  
 the book also provides an update on recent changes in the regulatory framework for European banks management of interest  
 rate risk in the banking book IRRBB including new EBA guidelines It also covers the latest developments in interest rate risk  
 management such as rapidly changing interest rates and modeling bank customers behavior      *Hoover's Handbook of*
