This casebook profiles exceptional traumatic injury prevention programs from all over the globe. Its detailed description and analysis employ a multi-stage process of identifying, evaluating and casing effective prevention practices. The case studies reflect how legislative and regulatory information impact prevention efforts and provide insight into how national centers for injury prevention and control inform prevention practices on countrywide levels. The authors work with outcome-based research criteria to select and develop their comprehensive and contextually aware profiles of the programs. All included case studies follow the BRIO approach: Background, Resources, Implementation and Outcome, a model designed to provide a consistent way of describing programs that have been evaluated and found to be exceptional practices. The scope of the Casebook ranges across The challenge of traumatic injury prevention, Sports and recreation related traumatic injury prevention, Fall related traumatic injury prevention, Road traffic related traumatic injury prevention, Traumatic injury prevention within complex systems.
