Teacher Involvement in High-Stakes Language Testing Daniel Xerri, Patricia Vella Briffa, 2018-04-27 This book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices The book also considers the arguments against teacher involvement e.g. the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable Using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy Moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students *A Village Orphan* Ifere Okirike, 2020-01-31 This is an incredible true story of the survival of an orphan who lured by the power of knowledge went on to achieve his life's dream of becoming one of the highly educated of his time despite all odds The story starts when he lost his father the only person he had at the age of seven He hardly knew his mother who died earlier when he was barely four Suddenly he was alone and his tearful childhood journey through life smacked of nothing but a miracle Because the

individual doesn't exist in a vacuum the story of this orphan is also that of his culture and custom at the time understanding both brings to life the enormous suffering and difficulty he endured and makes the reader appreciate more his amazing and unique story Also pity and anxiety to know what comes next for the little orphan create an inescapable suspense that glues the reader to the pages till the end And because it is the story of life and living there is abundance of human emotions tears joy sadness humor and brief moments of innocent love to mention just a few that keep the narrative alive to the last page the last line Amazing

The Making of a Scientist Jacob Mbua Ngeve PhD FCAS,2022-04-12 The author recounts his educational career and his professional career He documents his various achievements which brought him to the limelight to be named Director General a Presidential appointee He feels that if he was able to go that far any person who is determined enough and has the ambition to do so can do it also He recounts the temptation he had with his boss which eventually led to his being fired from his post He concludes by saying that it was better to resist temptation than do something that could jeopardize his reputation and get him into trouble
