Using Internet Primary Sources to Teach Critical Thinking Skills in Government, Economics, and Contemporary World Issues James M. Shiveley, Phillip J. VanFossen, 2001-09-30 Teachers of political science social studies and economics as well as school library media specialists will find this resource invaluable for incorporating the Internet into their classroom lessons Over 150 primary source Web sites are referenced and paired with questions and activities designed to encourage critical thinking skills Completing the activities for the lessons in this book will allow students to evaluate the source of information the content presented and its usefulness in the context of their assignments Along with each Web site a summary of the site's contents identifies important primary source documents such as constitutions treaties speeches court cases statistics and other official documents The questions and activities invite the students to log on to the Web site read the information presented interact with the data and analyze it critically to answer such questions as Who created this document Is the source reliable How is the information useful and how does it relate to present day circumstances If I were in this situation would I have responded the same way as the person in charge Strengthening these critical thinking skills will help prepare students for both college and career in the 21st century

Back to the Future Maria Assunção Flores, Ana Amélia Carvalho, Fernando Ilídio Ferreira, Maria Teresa Vilaça, 2013-06-13 Schools and teachers are facing various challenges in a rapidly changing world In such circumstances discussing and sharing concerns of mutual interest regarding policy practice and research is crucial to creating more

sophisticated understandings of the various challenges as a first step in the improvement of education While the future should not be imprisoned in the past the past does provide valuable lessons that will undergo new iterations in constructing the future The future will be multi faceted and complex and the different chapters included in this book are intended to provide important contributions from which to build the future of education The different chapters provide readers with international perspectives frameworks and empirical evidence of legacies continuities and changes in educational policy practice and research in teaching teacher education and learning We hope that they inspire the readers to build the future and to change their own professional realities Cheryl J Craig Ph D Professor University of Houston Houston TX USA Secretary ISATT This book metaphorically captures the looking backward to the past pressing forward to the future that typically takes place on celebratory occasions It causes us to pause and remember even as we race toward a time unknown to us In a sense the authors featured in this book serve as tour guides pointing out legacies continuities and changes in teaching and teacher education I strongly urge readers not only to peruse the chapters that follow but to distill them to their essences and to glean what is of value to be learned from them In conclusion the ISATT Executive especially thanks the co editors of this volume who have compiled a superb collection of chapters on a timely and relevant topic *Implementing Outcome-based Home Care* Melinda Huffman,2005 This workbook provides the tools necessary to implement outcome based patient care using OASIS outcomes OBQI Care pathways and disease management **The Blue Book on Information Age Inquiry, Instruction and Literacy** Daniel Callison,Leslie B. Preddy,2006-09-30 Based on many years of columns from School Library Media Activities Monthly authors Daniel Callison and Leslie Preddy present key terms in a working theoretical model that may be used in developing and understanding the power of information inquiry in instruction This book is both a revision and an update to Key Words Concepts and Methods for Information Age Instruction LMS Associates 2003 New columns from School Library Media Activities Monthly are included and entirely new key words for instruction are introduced These key terms have immediate value for staff development purposes They are reproducible and can be used in building year long study group programmes in schools and libraries or as weekly discussion handouts An entirely new section on inquiry has been added An in depth and invaluable section of resources and web sites has been updated In addition to the theoretical base the authors include much practical instructional application for immediate use The Blue Book on Information Age Inquiry Instruction and Literacy is the new definitive work on information inquiry and information literacy instruction The authors have thoughtfully blended theories in education and library science in a book that finally gives us a picture of the huge role of the school library media specialist as both a teacher and a librarian who needs to understand interpret and instruct students in the skill of inquiry the basis of all learning Back cover
