It is very unlikely that your stairlift will stop while travelling. However, if it does, we have provided you with a hand-winding tool and instructions on how to use it.

If your stairlift stops at the end of the rail and the green power light on the armrest goes off, use the checklist on page 19. If the checklist does not help you to solve the problem, please follow the instructions below.

If in any doubt, please contact your Stannah supplier for help. You will find their phone number on page 23 of this guide.

To move the stairlift using the hand-winding tool

Switch off the master power switch.

Remove the plastic cap on the front of the chair base.

Put the hand-winding tool into the hole where labelled.

Turn the handle as shown on the label on the chair base.

Safety

Never use the stairlift when the hand-winding tool is in the hole.

Thank you for choosing Stannah

We have designed the 260 stairlift to help you continue enjoying your life at home.

To help you get the most from your new stairlift, please take a few minutes to read this guide. Then, please keep this guide in a safe place in case you need to check any details in the future.

If you feel unsure about any aspect of your stairlift, please do not hesitate to get in touch with your stairlift supplier. You will find their phone number on page 23 of this guide.
