Methods That Matter M. Cameron Hay, 2016-05-05 To do research that really makes a difference the authors of this book argue social scientists need a diverse set of questions and methods both qualitative and quantitative in order to reflect the complexity of the world Bringing together a consortium of voices across a variety of fields *Methods That Matter* offers compelling and successful examples of mixed methods research that does just that Discussing their own endeavors to combine quantitative and qualitative methodologies the authors invite readers into a conversation about the best designs and practices of mixed methods to stimulate creative ideas and find new pathways of insight The result is an engaging exploration of a promising approach to the social sciences *Homework and Assessment* James Dobson, John Sander, Judith Woodfield, 2001 Includes guidance notes for assessing student s achievement and essential key skills Worksheets are designed to extend the ideas introduced in the students book Provides exercises for all abilities with levels of answers differentiated Accompanying website allows teachers and students to have easy access to further information on the topics covered in the series *From Photons To Atoms: The Electromagnetic Nature Of Matter* Daniele Funaro, 2019-09-10 Motivated by a revision of the classical equations of electromagnetism that allow for the inclusion of solitary waves in the solution space the material collected in this book examines the consequences of adopting the modified model in the description of atomic structures The possibility of handling photons in a deterministic way indeed gives a chance to review the foundations of quantum physics Atoms and molecules are described as aggregations of nuclei and electrons joined through organized photon layers resonating at various frequencies explaining how matter can absorb or emit light quanta Some established viewpoints are subverted offering an alternative scenario The analysis seeks to provide an answer to many technical problems in physical chemistry and at the same time to raise epistemological questions *Navigator* , 1972
