## **Elementary Media Center Common Core Lesson Plans:**

*Social Justice, the Common Core, and Closing the Instructional Gap* Janet C. Richards, Kristien Zenkov, 2015-10-01 There is little doubt that the Common Core State Standards CCSS are a controversial entity. They are provocative for the way in which they have been developed for the ways they are being implemented and evaluated for their content and for their failure to explicitly consider the needs, interests, and histories of diverse populations. While the CCSS continue to be problematized by critics around the country, including the editors of this volume, it is evident our nation is moving toward some would argue we have arrived at a national set of standards and/or a national curriculum. This text will be an important volume for multiple audiences in large part because it will bring together critical perspectives on the CCSS and the notion of national standards curricula. It will simultaneously provide a social justice orientation as a way to interpret the CCSS and respond to their limits while presenting practical examples of social justice oriented CCSS focused curricula that empower diverse learners and their teachers. *Social Justice, the Common Core, and Closing the Instructional Gap* will consist of chapters by classroom teachers and university scholars who portray honest, engaging first person accounts of their successes and challenges connecting a social justice pedagogical orientation to the Common Core State Standards. These authors candidly and passionately share the challenges of navigating between a social justice curriculum and high stakes standards and test driven environments. They highlight their accomplishments that include effectively supporting students to consider social injustices and devise plans to work toward a more equitable world.

*Strategic Planning for School Library Media Centers* Mary Frances Zilonis, Carolyn Markuson, Mary Beth Fincke, 2002-10-23 A strategic plan is a useful tool for communicating the purpose of the library media center (LMC) to the administrators, teachers, and parents of the school community. An initial benefit is an assessment of the library program's strengths, weaknesses, and impact on the teaching and learning process. The library media specialist should use the planning process to garner greater support, identify priorities for future direction, provide the basis for effective budget development, and articulate the LMC's integral role in the school's instructional program. Based on information power as well as input from focus groups of librarians, computer educators, teachers, administrators, and parents, the authors identified a core of the essential elements found in quality library media programs. Rubrics developed for this core provide a foundation for developing and prioritizing goals and objectives as well as tools for ongoing evaluation. School library media centers often short of time and staff will welcome this easy to follow blueprint packed with forms, questions to consider, templates, rubrics, and charts. From forming a committee and constructing surveys to good PR and a consistent evaluation process, this essential handbook provides the tools to create a visionary mission statement, the strategic plan that embodies it, and the steps to implement it.
