Sub – graduate school letter of recommendation

Dear Ms. Thatcher,

This is a recommendation letter for Ms. Emily Smith, who has been a student at the California State Community College for the last three years. I have been her class teacher as well as her teacher guardian for the past four years and I would strongly recommend Emily for admission in your prestigious university. Not only did her urge for learning new things fascinates me but her consistent performance in English as well other subjects have also surprised me to certain extend.

I hope this recommendation letter serves its purpose.

Thanking You

Yours sincerely,
ABC

ICLSSE 2021 I Gede Astra Wesnawa, Dewa Bagus Sanjaya, A Sediyo Adi Nugraha, Agus Machfud Fauzi, Sriyanto, Riki Ridwana, Laely Armiyati, 2021-12-10 The 3rd International Conference on Law Education and Social Sciences ICLSSE 2021 is an international forum to disseminate knowledge and research development among researchers, scholars, professionals and those interested in research interests Law and Social Sciences and Social Education. This conference was organized by the Faculty of Law and Social Sciences Universitas Pendidikan Ganesha. The theme of this third conference is Social Resilience in a Post Pandemic Era. No doubt that in the Pandemic Corona era we all together experienced coronavirus outbreaks in the socio cultural and economic life of the community. As an academician we all have to study how in this new normal era we are trying to increase socio cultural, socio psychological and socio economic resilience of the society through various innovations that can be developed together in research activities in the field of social sciences and law in general. So this conference can become a good vehicle for us to share all experiences and ideas about increasing social resilience in a post pandemic era from many perspectives of Law, Social Science and Social Education in general. *Knowledge-Based Intelligent Information and Engineering Systems* Mircea Gh. Negoita, 2004-10-14 We were very pleased to once again extend to the delegates and we are pleased to say our friends the warmest of welcomes to the 8 International Conference on Knowledge Based Intelligent Information and Engineering Systems at Wellington Institute of Technology in Wellington New Zealand. The KES conferences attract a wide range of interest. The broad focus of the conference series is the theory and applications of computational intelligence and emergent technologies. Once purely a research field, intelligent systems have advanced to the point where their abilities have been incorporated into many conventional application areas. The quest to encapsulate human knowledge and capabilities in domains such as reasoning, problem solving, sensory analysis and other complex areas has been avidly pursued. This is because it has been demonstrated that these abilities have definite practical applications. The techniques long ago reached the point where they are being exploited to provide commercial advantages for companies and real beneficial effects on profits. KES 2004 provided a valuable mechanism for delegates to obtain a profound view of the latest intelligent systems research into a range of algorithms, tools and techniques. KES 2004 also gave delegates the chance to come into contact with those applying intelligent systems in diverse commercial areas. The combination of theory and practice represents a uniquely valuable opportunity for appreciating the full spectrum of intelligent systems activity and the state of the art.
