

# ELEPHANTS

Elephants are big and strong mammals. They have long trunks and big floppy ears!

Elephants are the largest land animals. They have gray wrinkly skin. Their trunks are like a long nose. They use their trunk to grab things like leaves, bananas and water. Elephants also have big ears that help them stay cool.

There are two different types of elephants. Asian elephants and African elephants. Some elephants like forests and grasslands. Some elephants live in places called savannas.

Elephants are **herbivores**. An herbivore is an animal that eat plants. Elephants munch on grass, leaves, fruits, and even tree bark! They use their trunks to pick up food and bring it to their mouths.

Guess what? Elephants love water! They can use their trunks like a hose to spray themselves to cool down. Elephants are great swimmers too. They enjoy playing and splashing in the water.

Elephants are social animals. They like to live in groups called **herds**. In a herd, there are baby elephants, called **calves**, along with their moms, dads, and other family members. Elephants take care of each other and stay together.

Elephants are amazing, gentle animals with big ears, long trunks, and they live in families and care about each other.

**I-SPY VOCAB:** herbivores, herds, calves

**Fun Fact:** Did you know that elephants have great memories? They can remember things for a very long time, which is super cool!
