

How to Write an Exploratory Essay?

5 pages | 1044 words

There are plenty sorts of essays. This assignment implies liberal rules and gives certain freedom of action and thought to the writer. But still, there are sorts of essays that demand to make quite a large volume of efforts. One of these sorts is an exploratory essay. It wants you to perform some specific work. First of all, it requires lots of analysis of different sources. You need to explore different points of view on a certain question and consolidate it in one text. You cannot just rely on your feelings concerning the topic but to convey some serious research in the field. It is a kind of academic writing that shows you as mature and qualified person, whose possibilities go far than possibilities of a simple student. You need to devote much more time to this assignment comparing with the other kinds of essay. Scared? You should not because it only sounds so fearful. Let's look through this article that will help you to understand how to make the exploratory essay well.

What is an Exploratory Essay?

As it is clear from the title, your task is to explore some specific topic. You do not need to stand for or against it but only to provide all possible approaches to it. In some sense, you do not need to invent something new but only to compile the existing thoughts on the field. However, it would only benefit you if you add some new meaning to the topic or come to some unexpected conclusion. The restriction is quite conditional, and you are free to state your own thought on the topic. But still, do not forget to use existing opinions and approaches. You should be objective and pay equipollent attention to everything that has a connection with your topic. You do not have a specific audience so feel free to write it in your own way but still remember about some common audience that could be interested in your essay.

How to Choose a Good Exploratory Essay Topic

In order to come up with the proper topic, you need to look through the problems that are of current interest in nowadays world and that still cause noticeable controversies. It may be on the field of ethical questions, collisions between cultures (such as Swiss initiative against the construction of minarets), historical and contemporary questions on politics inside the culture. These examples are far not the final list, and it would be great if you find something more specific. In other words, you need to find something that excites public opinion. It implies the existence of more than even two opinions on the topic. You are not asked to solve this problem but only to explore why it is still relevant. After reading your essay, there should leave the same quantity of the questions or even more. Your aim is to acquaint your reader with this question and explain him why does he or she need to know this information.
