

sketches show the main bones of the head and neck with skin, cartilage, etc. muscles have layered on top to show how the layers sit together. The external body forms, especially as to the head, are determined to a large extent by the topographical relationship of the bones, other layers and how well they are developed with respect to each other.

we see the main skeleton of the torso within the outlines of the body, seen in frontal and dorsal views. Use these drawings as a tool to extend your understanding of the of the body.

we see the upper and lower limbs in frontal, dorsal and lateral views. As before, skeletal structure is shown within the context of the body.
