

FileApp Pro USER GUIDE

What is FileApp Pro?

FileApp Pro is a handy files and documents manager for iPhone, iPod Touch or iPad. It is a multimedia file viewer and text editor. FileApp Pro allows the move, copy, rename or transfer via email files, images, videos, PDF or office documents so that your iPhone folders can be managed and remain organized on the go.

It empowers the user with a file-system like application, allowing proper documents and folder management just like the Windows Explorer on a PC or the Finder on a Mac computer would.

What Can I do with FileApp Pro?

More than an iPhone browser, it lets you handle common file system actions such as move, or copy files or folders with single or multiple items selection.

Just like a file-system FileApp Pro allows storage and management of all type of folders and files. Depending on the nature of the file it will offer to open document in other apps. Conversely, other apps can store and access documents stored in FileApp Pro.

Smarter than just a file organizer it lets you create new folders or ZIP files with all supported types of files and documents; so that they can easily be transferred to computer via Wi-Fi or to other users by mail.

Better than just a reader FileApp Pro allows the creation and the edition of text files that can be further edited like any other Office document.

As good as the original FileApp Pro it has the same sleek and intuitive interface that displays files by folders, alphabetically, by date of copy or by file type.

How to Use FileApp Pro?

FileApp Pro is a file browser and manager for iPhone, it also features a multi-media reader of all readable formats by the iPhone OS.

When you launch FileApp Pro for the first time, you see a single document called FileApp Pro Getting Started - containing precisely what you are reading right now!

FILE MANAGER VIEWS

Four different icons at the bottom of the screen represent 4 different VIEWS. A view is a mean of visually organizing the contents of the FileApp Pro application folder within which files will be copied from the computer ([view: FILE TRANSFER TO IPHONE & COPY TO COMPUTER](#) below)
