Resources in Education ,1997-10 **Economy and Semantic Interpretation** Danny Fox,2000 Exploring the relevance of principles of optimization to the interface between syntax and semantics In *Economy and Semantic Interpretation* Danny Fox investigates the relevance of principles of optimization economy to the interface between syntax and semantics Supporting the view that grammar is restricted by economy considerations Fox argues for various economy conditions that constrain the application of covert operations Among other things he argues that syntactic operations that do not affect phonology cannot apply unless they affect the semantic interpretation of a sentence This position has a number of consequences for the architecture of grammar For example it suggests that the modularity assumption according to which a language s syntax must be characterized independently of its semantics needs to be revised Another consequence concerns new answers to the question of exactly where in the syntactic derivation the various constraints on interpretation apply Linguistic Inquiry Monograph No 35 Copublished with the MIT Working Papers in Linguistics series **Digital Economy. Emerging Technologies and Business Innovation** Rim Jallouli,Mohamed Anis Bach Tobji,Meriam Belkhir,Ana Maria Soares,Beatriz Casais,2023-09-16 This book constitutes the proceedings of the 8th International Conference on Digital Economy ICDEc 2023 which took place in Braga Portugal in May 2023 The 26 full papers included in this volume were carefully reviewed and selected from 72 submissions They were organized in topical sections as follows Digital transformation e learning and digital competencies digital marketing and artificial intelligence e finance and digital assets digital marketing and data analytics digital economy online session **The Accountant** ,1912 *Accountant Student and Accountants' Journal* ,1913 *Agricultural Economics, Agriculture in Economic Development & Health Economics* Edward Tower,1985 **Papers and Discussions Presented Before the [Coal] Division** American Institute of Mining, Metallurgical, and Petroleum Engineers,1916 *Calendar* University of Manchester,1924 *Pulp and Paper Magazine of Canada* ,1927 *Principles of Environmental Economics and Sustainability* Ahmed Hussen,2012-11-12 Recent years have witnessed considerable consolidation between the disciplines of environmental and ecological economics at research level but until now textbooks in the area have done little to reflect this Ahmed Hussen s book is to date the only one to reconcile the two standpoints The central focus of the book will continue to be on this systematic integration of both mainstream and ecological approaches to environmental economics and an acknowledgement that enduring solutions to major contemporary environmental challenges can be obtained through studies based on a well conceived and balanced interdisciplinary approach However this third edition also contains much that is new Chiefly brand new chapters appear covering the following topics The economics of climate change The economics of biodiversity and ecosystem services Green accounting and alternative economic and social indicators of sustainability The business case for environmental sustainability An Appendix that provides a brief historical account of the development of ecological economics The result is a comprehensive

introduction to the main facets of environmental and ecological economics a text that boldly refuses to put up barriers between disciplines and takes a holistic approach to vital issues This student friendly textbook contains a variety of study tools including learning points boxed features case studies revision questions and discussion questions and an Appendix that provides students with a review of basic economic principles relevant to the study of the environment and its management Written in a clear and accessible style this book will prove an excellent choice for introducing both students and academics to the world of environmental economics

Restoring Opportunity Greg J. Duncan, Richard J. Murnane, 2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted interventions and supports can help schools significantly improve the life chances of low income children The authors offer a brilliant synthesis of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation
