**Region-Making and Cross-Border Cooperation** Elisabetta Nadalutti, Otto Kallscheuer, 2017-12-15 This book explores the nature of regions and how they function particularly at the local and micro level Whilst recent years have seen a resurgence in debates around the roles which regions can play in development the focus has tended to be on macro regional institutions such as the EU ASEAN ECOWAS or MERCOSUR In contrast this book offers a nuanced analysis of the important field of sub regionalism and sub national cross border cooperation Region Making and Cross Border Cooperation takes a fresh look at both theoretical and empirical approaches to region making through cooperation activities at the micro level across national borders in Europe Southeast Asia Latin America Africa and the Middle East The book aims to explore the role that institutional dynamics play at the micro level in shaping local and global ties investigate what the formal and informal integration factors are that bolster regionalism and regionalization processes and to clarify to what extent and under what conditions cooperation at the micro level can be instrumental to solving common problems Scholars and students within politics sociology geography and economics would find this book an important guide to regionalism at a micro local level perspective

*The New Normal* Amitai Etzioni, 2014-11-05 Amitai Etzioni argues that societies must find a way to balance individual rights and the common good This point of balance may change as new technologies develop the natural and international environments change and new social forces arise Some believe the United States may be unduly shortchanging individual rights that need to be better protected Specifically should the press be granted more protection Or should its ability to publish state secrets be limited Should surveillance of Americans and others be curtailed Should American terrorists be treated differently from others How one answers these questions Etzioni shows invites a larger fundamental question Where is the proper point of balance

between rights and security Etzioni implements the social philosophy liberal communitarianism Its key assumptions are that neither individual rights nor the common good should be privileged that both are core values and that a balance is necessary between them Etzioni argues that we need to find a new balance between our desire for more goods services and affluence particularly because economic growth may continue to be slow and jobs anemic The key question is what makes a good life especially for those whose basic needs are sated

Emissions Trading Schemes Sanja Bogojevic,2013-07-04 Over the last four decades emissions trading has enjoyed a high profile in environmental law scholarship and in environmental law and policy Much of the discussion is promotional preferring emissions trading above other regulatory strategies without however engaging with legal complexities embedded in conceptualising scrutinising and managing emissions trading regimes The combined effect of these debates is to create a perception that emissions trading is a straightforward regulatory strategy imposable across various jurisdictions and environmental settings This book shows that this view is problematic for at least two reasons First emissions trading responds to distinct environmental and non environmental goals including creating profit centres substituting bureaucratic control of resources and ensuring regulatory compliance This is important as the particular purpose entrusted to a given emissions trading regime has as its corollary a particular governance structure according to which the regime may be constructed and managed and which trusts the emissions market the state and rights in emissions allowances with distinct roles Second the governance structures of emissions trading regimes are culture specific which is a significant reminder of the importance of law in understanding not only how emissions trading schemes function but also what meaning is given to them as regulatory strategies This is shown by deconstructing emissions trading discourses that is by inquiring into the assumptions about emissions trading as featuring in emissions trading scholarship and in debates involving law and policymakers and the judiciary at the EU level Ultimately this book makes a strong argument for

reconfiguring the common understanding of emissions trading schemes as regulatory strategies and sets out a framework for analysis to sustain that reconfiguration      **Resilient Businesses for Sustainability** Rajnish Kumar Misra,Shriram A.

**The Emergence of Brand-Name Capitalism in Late Colonial India** Douglas E. Haynes,2022-09-22 This book examines the emergence of professional advertising in western India during the interwar period It explores the ways in which global manufacturers advanced a brand name capitalism among the Indian middle class by promoting the sale of global commodities during the 1920s and 1930s a time when advertising was first introduced in India as a profession and underwent critical transformations Analysing the cultural strategies both verbal and visual used by foreign businesses in their advertisements to capture urban consumers Haynes argues that the promoters of various commodities crystalized their campaigns around principles of modern conjugality He also highlights the limitations of brand name capitalism during this period examining both its inability to cultivate markets in the countryside or among the urban poor and its failure to secure middle class customers With numerous examples of illustrated advertisements taken from Indian newspapers the book discusses campaigns for male sex tonics and women s medicines hot drinks such as Ovaltine and Horlicks soaps such as Lifebuoy Lux and Sunlight cooking mediums such as Dalda and electrical household technologies By examining the formation of brand name capitalism and two key structures that accompanied it the advertising agency and the field of professional advertising this book sheds new light on the global consumer economy in interwar India and places developments in South Asia into a larger global history of consumer capitalism      **Resources in Education** ,1981      **The Official Index to the**
