themselves provide wonderful evidence of a transnational process at work Finally the text brilliantly illuminates the way in which town planning was critically linked to other reformist movements of the era The whole event like the International Union of Cities that it spawned was the product of the peace movement Even as war draw nearer the International Union was being spoken of as a future world government Significantly one of the organisers of the event Henri La Fontaine won the Nobel Peace Prize in 1913 The Premier Congr s international et exposition compar e des villes is a major publication but it is one that is now almost impossible to obtain This republication a century after this seminal event will be considerable interest not only to those who work on town planning but also transnational historians and writers on the peace movement more generally **Délibérations Et Mémoires de la Société Royale Du Canada** Royal Society of Canada,1901
