

3. What are the characteristics of Baroque Sculpture? Give an example of a sculpture that employs Baroque style. Characteristics of Baroque Sculpture are vital, energized, and dynamic, suggesting action and deep emotion. Other characteristics include; life-size, sense of grandeur, monumental, deeply cut facial expressions and clothing capturing light and casting shadows to create not just depth but drama. An ideal example of Baroque Sculpture is Bernini's David, which has fierceness of expression, movement, and dynamism in the Baroque style. In character the sculpture is also Baroque because of the implied presence of Goliath. The energy of the space between David and his invisible adversary also shows an element of Baroque. The sculpture distinctive feature of Baroque is its new, active relationship with the surrounding space. However, it is meant to be seen as in most other Baroque sculpture, from one primary point of view.

4. Discuss the Qualities of Velazquez's "The Maids of Honor" What particularly makes this work a Baroque painting? One quality is the man in the door entering the room seems to stare deep into the space as to examine things. Although the area seems to be small this aspect of the painting makes the figure look very far away; a spatial value of Baroque. The use of light by Velazquez pulls the viewer into the court as the focal point. Everyone in the painting appears to be looking at the viewer. In the Baroque style the painting tells a story of an event of a wedding which makes the viewer feel as if they are a part of what is going on. Tenebrism seems to be the particular quality that makes Velazquez's painting a Baroque painting; the use of darker tones in the background and light used on the royal court to give them greater importance.
