

1st Generation's new features

point and covers a wide frequency range. Preamp-2, which uses bipolar transistors for higher gain, is ideal when you use separate low-efficiency receiving antennas such as small loops or Beverages.

Real time spectrum scope with mini scope function

The real time spectrum scope is now an indispensable tool for top performing HF radios. The IC-756PROIII's spectrum scope adds a mini scope function, as requested by many PROII users. The mini scope allows you to monitor the scope screen while you use other function menus. For example, you can monitor the scope screen even while you are changing the IF filter shape and passband width. The scope range can be set in 4 steps: ± 12.5 kHz, ± 25 kHz, ± 50 kHz and ± 100 kHz, centered on

the receiving frequency. In addition, the spectrum scope has 3 attenuator levels (10dB, 20dB and 30dB).

Mini scope screen

Normal spectrum scope screen

Eight-channel RTTY TX memory

The IC-756PROIII has 8 channels of RTTY transmit memory. You can edit and send up to a 62 character message for each memory channel without a PC or other external unit*. The transmit memory is displayed on the screen so you won't send the wrong message. The built-in RTTY demodulator and decoder allow you to check the callsign of the station on the air instantly. A PC or external unit is not also necessary.

* When writing and sending RTTY messages on site, a Terminal Unit, TNC or PC and dedicated software is required.

RTTY transmit memory screen

Adjustable SSB transmit BW

The SSB transmit bandwidth is selectable from 100, 300 and 500Hz at the high-pass edge, and 2500, 2700 and 2900Hz at the low-pass edge respectively. 3 types of high and low combinations can be stored in the memory. In addition, the built-in audio equalizer has separate bass and treble adjustments for a total of 121 combinations, so you can tune your voice up or down as you want. With this flexible DSP-based waveform shaping, you can tailor your transmit audio quality to suit your operating style.

SSB transmit bandwidth setting

Other new features

- New 60 meter band coverage, equivalent transmit power and antenna tuner capabilities to the other bands.
(U.S.A. version, USB mode only)
- 2 clocks show different time zones at once, such as local and UTC time.
- Screen saver function
- @ code (• - - • - - •), used in e-mail addresses, added to memory keyer
