Advances in CAD/CAM P.C.C. Wang,2012-12-06 To understand what we know and be aware of what is to be known has become the central focus in the treatment of CAD CAM issues It has been some time since we began treating issues arriving from engineering data handling in a low key fashion because of its housekeeping chores and data maintenance aspects representing nonglamorous issues related to automation Since the advent of CAD CAM large numbers of data bases have been generated through standalone CAD systems And the rate of this automated means of generating data is rapidly increasing this is possibly the key factor in changing our way of looking at engineering data related problems As one deeply involved with engineering data handling and CAD CAM applications I know that to succeed we must do our homework tracking the trends keeping abreast of new technologies new applications new companies and products that are exploding on the scene every day In today s fast paced information handling era just keeping up is a full time job That is why ATI has initiated these publications in order to bring to the users some of the information regarding their experiences in the important fields of CAD CAM and engineering data handling This volume contains some of the paper including revisions which were presented at the Fifth Automation Technology Conference held in Monterey California A series of publications has been initiated through cooperation between ATI and the Kluwer Academic Publishers The first volume was Advances in Engineering Data Handling Case Studies
