

LOCAL LIGHT-SOURCE ASSIGNMENTS

Let's start by making four small cubes. To get the effect of a light source, we'll use a simple rule: the light will come from the direction of the light source. The light will come from the direction of the light source. The light will come from the direction of the light source.

When we have a light source, we can assign it a direction. The light will come from the direction of the light source. The light will come from the direction of the light source. The light will come from the direction of the light source.
