Instructions to Mark Question Paper I

1. Get the template prepared for marking certified by the chief examiner.

2. Check the answer script first, and cross out all options of the question of which either more than one option is marked or not marked.

3. Mark either correct or incorrect on the question number itself.

4. DO NOT indicate correct or incorrect (√, x) marks on the candidate's answer.

5. Cut a window over the question numbers' column on the template, and mark correct / incorrect on the same column.

6. Be careful about the alignment of the template and the answer script during marking.

7. Count down the correct answers along each column and indicate under the same and then get the grand total of the correct answers (xx/40) and write it in the cage given in right.

8. Be careful when adding up marks and writing it down in the second question paper.

9. Accept when the candidate has marked the answers by underlining the options or marked in the question paper itself without using the answer script.
