Identity And Capitalism:

Identity and Capitalism Marie Moran, 2014-11-13 This is a splendid book that dispels myths about identity and presents a cultural materialist case for the study of such keywords and their preoccupations under the hegemony of neoliberal capitalism Professor Jim McGuigan Loughborough University Identity particularly as it is elaborated in the associated categories of personal and social identity is a relatively novel concept in western thought politics and culture The explosion of interest in the notion of identity across popular political and academic domains of practice since the 1960s does not represent the simple popularisation of an older term as is widely assumed but rather the invention of an idea Identity and Capitalism explores the emergence and evolution of the idea of identity in the cultural political and social contexts of contemporary capitalist societies Against the common supposition that identity always mattered this book shows that what we now think of routinely as personal identity actually only emerged with the explosion of consumption in the late twentieth century It also makes the case that what we now think of as different social and political identities only came to be framed as such with the emergence of identity politics and new social movements in the political landscapes of capitalist societies in the 60s and 70s Marie Moran provides an important new exploration of the articulation of the idea of identity to the social logic of capitalism from the organised capitalism of the mid twentieth century up to and including the neoliberal capitalism that prevails today Drawing on the work of Raymond Williams the cultural materialist approach developed here provides an original means of addressing the political debates about the value of identity in contemporary capitalist societies

McGowan,2020-07-21 The great political ideas and movements of the modern world were founded on a promise of universal emancipation But in recent decades much of the Left has grown suspicious of such aspirations Critics see the invocation of universality as a form of domination or a way of speaking for others and have come to favor a politics of particularism often derided as identity politics Others both centrists and conservatives associate universalism with twentieth century totalitarianism and hold that it is bound to lead to catastrophe This book develops a new conception of universality that helps us rethink political thought and action Todd McGowan argues that universals such as equality and freedom are not imposed on us They emerge from our shared experience of their absence and our struggle to attain them McGowan reconsiders the history of Nazism and Stalinism and reclaims the universalism of movements fighting racism sexism and homophobia He demonstrates that the divide between Right and Left comes down to particularity versus universality Despite the accusation of identity politics directed against leftists every emancipatory political project is fundamentally a universal one and the real proponents of identity politics are the right wing Through a wide range of examples in contemporary politics film and history *Universality and Identity Politics* offers an antidote to the impasses of identity and an inspiring vision of twenty first century collective struggle *Profit and Pleasure* Rosemary Hennessy,2002-06-01 Drawing on an international range of examples

from Che Guevarra to *The Crying Game* *Profit and Pleasure* leads the discussion of sexuality to a consideration of material reality and the substance of men and women s everyday lives *Beyond Profit* Samir Alamad,2024-04-12 This book

Identity and Lifestyle: The Forces That Drive the World Mark Romel,2018-04-10 You build your lifestyle around your identity Your identity is your fate You are what you do and you do what you do because of your identity What you do constitutes your lifestyle Most people are so busy with their lifestyle that they fail to consider whether or not their lifestyle is helping them or hindering them You optimize yourself through having an optimal lifestyle but how do you decide what lifestyle is best Most people drift into lazy easy convenient lifestyles acceptable to their peer group that guarantee they will fail in life Changing your lifestyle involves changing your identity and that is the most difficult thing possible for average people They don t have the will Don t bother talking about changing the world unless you are in the business of destroying old identities and lifestyles and creating brand new ones As soon as you try to change a person s sacred identity you are at war with them Are you ready for the mother of all wars

Agostinone-Wilson, 2010-10-11 This book seeks to revive dialectical materialist interpretations of sexuality relevant to K 12 settings and society Issues addressed include sexuality and the curriculum theories of the family critiques of postmodernism socialist feminism and activist tactics strategies for organizing in K 12 settings Religion and the Individual: Belief, Practice, and Identity Douglas J. Davies, Michael J. Thate, 2018-07-05 This book is a printed edition of the Special Issue Religion and the Individual Belief Practice and Identity that was published in Religions **Chinese Enterprise, Transnationalism and Identity** Terence Gomez, Hsin-Huang Michael Hsiao, 2004-03-01 First Published in 2004 Chinese Enterprise Transnationalism and Identity focuses on one ethnic community the Chinese and examines the variety of issues surrounding enterprise development from national and transnational perspectives starting with the role played by Chinese entrepreneurs in the 1997 Asian financial crisis Using empirical evidence and theoretical debate the contributors argue that Chinese enterprise is accelerated by intra ethnic competition rather than intra ethnic cooperation and that businessmen work in their own interest not that of the Chinese community as other literature dealing with the subject suggests Themes which this book radically reviews include Culture and networks Family business Ownership and control Transnationalism and identity By carefully tracing the emergence of new generations the contributors suggest that new forms of ethnic identification and of national identity and affiliation have emerged With its combined analysis of ethnic minorities in Asia and of Chinese business this book will appeal to scholars of Asian and business studies alike *Identity, Mediation, and the Cunning of Capital* Ani Maitra, 2020-05-15 In Identity Mediation and the Cunning of Capital Ani Maitra urgently calls for a reevaluation of identity politics as an aesthetic maneuver regulated by capitalism A dominant critical trend in the humanities Maitra argues is to dismiss or embrace identity through the formal properties of a privileged aesthetic medium such as literature cinema or even the performative body In contrast he demonstrates that identity politics becomes unavoidably real and material only because the minoritized subject is split between multiple sites of mediation visual linguistic and sonic while remaining firmly tethered to capitalism s hierarchical logic of value production Only in the interstices of media can we track the aesthetic conversion of identitarian difference into value marked by the inequities of race class gender and sexuality

Maitra's archive is transnational and multimodal. Moving from anticolonial polemics to psychoanalysis to diasporic experimental literature to postcolonial feminist and queer media, he lays bare the cunning by which capitalism produces and fragments identity through an intermedial aesthetic dissonance with the commodity form. Maitra's novel contribution to theories of identity and to the concept of mediation will interest a wide range of scholars in media studies, critical race and postcolonial studies, and critical aesthetics. Intercultural Communication Kathryn Sorrells, Sachi Sekimoto, 2025-07-08

Intercultural Communication: Globalization and Social Justice introduces students to the study of communication among cultures within the broader context of globalization. Kathryn Sorrells and new co-author Sachi Sekimoto highlight history, power, and global institutions as central to understanding the relationships and contexts that shape intercultural communication. Based on a framework that promotes critical thinking, reflection, and action, this text takes a social justice approach that equips students with the skills and knowledge to create a more equitable world through communication. The new Fourth Edition includes additional case studies and expanded discussions of the backlash to globalization, the rise of ethnonationalism, decline of democracy, new media, and new technologies and implications for intercultural communication.

Citizenship and Identity Engin F. Isin, Patricia K. Wood, 1999-09-08 Through a detailed introductory discussion of the relation between the civil and the political and between recognition and representation, this book provides a comprehensive vocabulary for understanding citizenship. It uses the work of T. H. Marshall to frame the critical interrogation of how ethnic, technological, ecological, cosmopolitan, sexual, and cultural rights relate to citizenship. The authors show how the civil, political, and social meanings of citizenship have been redefined by postmodernization and globalization. Identity Trumps Socialism Marc James Léger, 2023-04-21 With essays by today's leading leftist social critics, *Identity Trumps Socialism* presents a rigorous and persuasive primer on the problems generated by postmodern and neoliberal challenges to the legacy of emancipatory universality. In addition to the ways in which capitalism has used racialized and gendered forms of oppression to divide the working class, today's activism must also understand how neoliberal capitalism uses identity politics to undermine socialism. *Identity Trumps Socialism* advances an emancipatory left universality that addresses the limits of diversity and makes the case for the centrality of class in the struggle against global capitalist hegemony. Marx and Laozi James Chambers, 2023-11-03 In this work, the theories of Marx and Laozi are dialectically combined. The resulting synthesis is a positive materialist negation of Hegel's idealist dialectics. Syntheses are presented for Marx and Laozi in ontology, metaphysics, epistemology, scientific method, ethics, and politics, the full spectrum of their foundational principles. The book is an attempt to reconstruct a materialist interpretation of Laozi which can be put to work for Marxist theory.
