Effectiveness of China's Industrial Policies in Commercial Aviation Manufacturing Keith Crane,Jill E. Luoto,Scott Warren Harold,David Yang,Samuel K. Berkowitz,Xiao Wang,2014-04-03 This report assesses the effectiveness of China s industrial policies using China s commercial aviation manufacturing industry as a case study It evaluates China s efforts to create a national champion in this industry and analyzes foreign manufacturers efforts to protect key technologies when setting up production facilities there It also offers policy options for foreign governments responding to Chinese policies

Sectoral Systems of Innovation and Production in Developing Countries Franco Malerba,Sunil Mani,2009-01-01 Over the past decade there has been a dramatic increase in the quantity and quality of research focused on the processes through which technological capabilities are acquired by countries significantly behind the economic frontier and the institutions that effectively support the catching up process This book is a splendid contribution to this literature The concept of a sectoral innovation system is well suited for framing studies of these kinds of questions and serves well to unify the many interesting empirical studies in the book Some of those studies are success stories others of less successful cases Readers new to this body of research will find this book a great introduction All readers will learn a lot from it about what is required for and involved in economic development Richard R Nelson Columbia Earth Institute US and University of Manchester UK This book examines in detail the features and dynamics of sectoral systems of innovation and production in developing countries Processes of rapid growth are usually associated with specific sectors such as automobiles electronics or software as well as with the transformation of traditional sectors such as agriculture and food The book shows however that the variations across all these sectors in terms of structure and dynamics is so great that a full understanding of these differences is necessary if innovation is to be encouraged and growth sustained The expert contributors promote this understanding by drawing upon empirical evidence from a wide range of sectoral systems from traditional to high technology and across a number of countries They explore how these systems change and evolve highlighting policy lessons to be drawn from the analysis Case studies include the Brazilian aeronautical pulp and paper industries the Korean machine tool sector motorbike manufacture in Thailand and Vietnam pharmaceuticals and telecommunication equipment in India ICT in Taiwan the biofuels sector in Tanzania salmon farming in Chile and software in Uruguay Scholars and researchers in the fields of economics development economics in particular and innovation will find this book to be of great interest Policymakers and managers focussing on innovation and growth in developing countries will also warmly welcome the book Bibliographic Guide to Technology

New York Public Library. Research Libraries,1984 **The Brazilian Economy** Edmund Amann,2020-11-19 The Brazilian economy has long been defined by its enormous potential Over the past 30 years some of this has at last been realised Latin America s largest economy has rapidly risen in global importance while poverty at home has declined Yet despite periods of progress Brazil remains prone to economic crisis It is also beset with stubborn inefficiencies and income disparities This book considers the structural challenges which will need to be overcome if Brazil is to break with the past and finally embark on a path of sustained inclusive growth This book aims to give the reader a clear knowledge of the nature of these structural challenges why they exist and the effectiveness of attempts to overcome them Through this readers will gain a deep understanding of the contemporary Brazilian economy The challenges discussed fall into three areas those centring on competitiveness and the supply side those arising from critical macroeconomic issues and those connected with environmental sustainability and social inclusion This volume systematically examines each of these domains highlighting such vital topics as export competitiveness human capital formation environmental policy and the role of financial market reform Where appropriate this book sets Brazil s experience in an international comparative context It points out that many of the challenges faced by Brazil are shared by other emerging economies In this sense the policy lessons which stem from this volume have broader international relevance This book will be vital reading for all those seeking in depth understanding of one of the world s most important yet troubled economies This readership is likely to include undergraduate and postgraduate students on development economics and Latin American area studies programmes policymakers wanting an up to date and coherent analysis of Latin America s largest economy and financial professionals In-Flight Medical Emergencies Jose V. Nable,William J. Brady,2023-07-03 This book functions as a practical guide for health care professionals encountering medical emergencies during a commercial flight A second edition to its successful predecessor this text covers the most common emergencies encountered during flight both general medical emergencies and those specifically tied to the effects of flying including cardiac respiratory and neurological issues Medicolegal issues are considered in depth for both United States domestic and international flights as there is potential legal risk involved in giving medical assistance on a flight This new edition includes expanded and updated original chapters revised based on available new research material Additional chapters examine how to handle disruptive passengers experiencing acute behavioral issues during flight emerging infectious diseases This issue is particularly relevant due to COVID 19 specifically concerning the anxiety and readjustment challenges of resuming everyday travel This edition includes a new chapter recounting the history of the handling of in flight medical events In Flight Medical Emergencies 2nd ed functions as an essential resource for physicians and all healthcare professionals who travel regularly System Analysis and Modelling in Air Transport Milan Janić,2021-01-04 This book presents a comprehensive analysis and modelling of demand capacity quality of services economics and sustainability of the air transport system and its main components airports airlines and ATC ATM Air Traffic

Control Management Airports consist of the airside and landside area characterized by their capacities for handling demand such as aircraft air passengers and air freight cargo shipments Regarding spatial configuration airlines generally operate hub and spoke conventional or legacy airlines and point to point LCCs Low Cost Carriers air route networks Their fleets consisting of different aircraft types provide transport capacity for serving demand including air passengers and freight cargo shipments The ATC ATM includes the controlled airspace traffic management and control facilities and equipment on the ground space and on board aircraft and the ATC Controllers They all provide capacity to handle demand consisting of the flights between origin and destination airports carried out by airline aircraft The outcome from the interrelationships between demand and capacity at these components materializes as the quality of services At airports and airlines this is generally expressed by congestion and delays of aircraft air passengers and freight cargo shipments At ATC ATM this is expressed by delays horizontal and vertical in efficiency and safety of flights Economics of each component relate to its revenues costs and profits from handling demand i e providing services of given quality The sustainability of air transport system has become increasingly important issue for many internal and external actors stakeholders involved to deal with This has implied increasing the system s overall social economic effects benefits while reducing or maintaining constant impacts costs on the environment and society at both global and regional local scale under conditions of continuous medium to long term growth

Training and Assessing Non-Technical Skills

Matthew J.W. Thomas,2017-08-04 Providing a practical guide to the training and assessment of non technical skills within high risk industries this book will be of direct interest to safety and training professionals working within aviation healthcare rail maritime and other high risk industries Currently each of these industries are working to integrate non technical skills into their training and certification processes particularly in light of increasing international regulation in this area However there is no definitive guidance to assist practitioners within these areas with the design of effective non technical skills training and assessment programs This book sets out to fully meet this need It has been designed as a practically focussed companion to the 2008 book Safety at the Sharp End by Flin O Connor and Crichton While Safety at the Sharp End provides the definitive exploration of the need for non technical skills training and examines in detail the main components of non technical skills as they relate to safe operations the text does not focus on the nuts and bolts of designing training and assessment programs To this end Training and Assessing Non Technical Skills A Practical Guide provides an extension of this work and a fitting companion text
