Handbook of Development Economics Dani Rodrick, M.R. Rosenzweig, 2009-11-09 What guidance does academic research really provide to economic policy development The critical and analytical surveys in this volume investigate links between policies and outcomes by surveying work from broad macroeconomic policies to interventions in microfinance Asserting that there are no universal correspondences between policies and outcomes contributors demonstrate instead that only an intense familiarity with the development context and the universe of applicable economic models can generate successful policies Getting cause and effect right is essential for policy design and implementation With the goal of drawing researchers and policy makers closer this volume highlights our increasing understanding of ways to combine economic theorizing with careful thoughtful empirical work Presents an accurate self contained survey of the current state of the field Summarizes the most recent discussions and elucidates new developments Although original material is also included the main aim is the provision of comprehensive and accessible surveys *Land Economics*, 1948 *Alternative Methodologies for Social Assessment of Environmental Projects* Cristian Gonzalez, 2022-01-29 The main objective of this contribution is to propose different methodologies in order to find and compare new solutions for evaluating social projects We have chosen two approaches hedonic price and contingent valuation These procedures can be presented in a quantitative and or qualitative form We emphasize the social assessment in terms of benefits of the related environmental projects

Environmental Scenario in India Sacchidananda Mukherjee, Debashis Chakraborty, 2013-06-17 India has moved along an impressive growth path over the last decade marked with falling share of agriculture stagnating manufacturing expanding services segment growing trade orientation enhanced FDI inflows etc The consequent growth implications are obvious as far as the numbers like GDP growth rate and Per Capita GDP trend are concerned but how sustainable the associated development is with respect to resource management and environmental governance This book captures the economy wide impacts of various activities on environment in India The environmental impacts on water air soil quality and human health are captured through case studies from different parts of India Analyzing separately the concern areas within agriculture cultivation aquaculture manufacturing industrial pollution power generation services waste management bio medical waste e waste recycling and external sector agricultural trade FDI inflow trade in waste products performance of India the book attempts to find an answer to that crucial question The methodology adopted to capture the environmental impacts of various economic activities is derived from the relevant branches like environmental economics agricultural economics and water resources economics The book focusing on particular sectors indicates the concern areas and possible ways for enhancing environmental governance [Central American Biodiversity](#) Falk Huettmann, 2015-08-04 This book highlights key results and lessons learnt from two field sites La Suerte in Costa Rica and Ometepe Nicaragua It provides long term data on species

abundance and distribution Primates receive specific attention in this book as they are flagship species and good indicators for the health of an ecosystem but as well a money maker Many primate species are sensitive to habitat alteration and are often hunted out first But they play an important role as seed dispersal agents for the regeneration of the forest The book then compares results from the two field sites with regional trends and explores potential solutions such as REDD This book strongly calls for new approaches in conservation it makes the case for looking beyond the pure species biology and classic conservation angle and to take into account the economic and political realities
