JavaScript Training Manual

Classroom in a Book TeachUcomp, 2017-10-27. Complete classroom training manual for JavaScript. 283 pages and 128 individual topics. Includes practice exercises and keyboard shortcuts. The purpose of this course is to educate the student in the basic language skills necessary to use JavaScript. There are many resources available on the Internet that allow you to download code and place it into your HTML document or JavaScript code file. However, it is important to first understand the underlying language and components of JavaScript to be able to alter the code to work in your desired application and easily troubleshoot any errors that may occur. Whether you are looking to add interactivity to your website, control how a browser acts, or alter your HTML document's content, it is important to have a firm grasp of the basics of JavaScript. We begin this course by discussing the basic components and structure of JavaScript as well as learning the terminology.
