Respiratory Care ,1983 **Ensuring Quality Cancer Care** Institute of Medicine and National Research Council,Commission on Life Sciences,Institute of Medicine,National Cancer Policy Board,1999-08-21 We all want to believe that when people get cancer they will receive medical care of the highest quality Even as new scientific breakthroughs are announced though many cancer patients may be getting the wrong care too little care or too much care in the form of unnecessary procedures How close is American medicine to the ideal of quality cancer care for every person with cancer Ensuring Quality Cancer Care provides a comprehensive picture of how cancer care is delivered in our nation from early detection to end of life issues The National Cancer Policy Board defines quality care and recommends how to monitor measure and extend quality care to all people with cancer Approaches to accountability in health care are reviewed What keeps people from getting care The book explains how lack of medical coverage social and economic status patient beliefs physician decision making and other factors can stand between the patient and the best possible care The board explores

how cancer care is shaped by the current focus on evidence based medicine the widespread adoption of managed care where services are provided and who provides care Specific shortfalls in the care of breast and prostate cancer are identified A status report on health services research is included Ensuring Quality Cancer Care offers wide ranging data and information in clear context As the baby boomers approach the years when most cancer occurs this timely volume will be of special interest to health policy makers public and private healthcare purchasers medical professionals patient advocates researchers and people with cancer
