The North American Auto Industry since NAFTA Greig Mordue,Dimitry Anastakis,2024-10-01 The auto sector is North America s most iconic of industries Since the North American Free Trade Agreement came into existence in 1994 the sector has undergone tremendous change escalating concerns around climate change advances in electric and automated vehicles deindustrialization reindustrialization and the rise of low cost locations as hubs for manufacturing The North American Auto Industry since NAFTA examines the issues that have preoccupied the development of policy associated with the manufacture of automobiles in North America The collection addresses the punctuations that have afflicted the industry since NAFTA s implementation as well as the slower incremental evolutions that have also occurred Several aspects of automobility and the industry are explored including but not limited to the Canadian American and Mexican automotive sectors and their evolution and interaction under evolving trade regimes The book analyses issues surrounding labour technology trade policy regional development the environment and broader societal impacts of the automobile It also draws on the expertise of a wide cross section of industry experts and scholars to provide readers with a deeper understanding of the automotive industry and its central role in North America s economic business and political landscape

Popular Music in a Digital Music Economy Tim J. Anderson,2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge This book is not a definitive statement about what the new music industry is Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an

object based industry oriented around the production and exchange of physical recordings In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments
