Lecture Chapter 3:

Elementary Linear Algebra Howard Anton, Chris Rorres, 2010-04-12 Elementary Linear Algebra 10th edition gives an elementary treatment of linear algebra that is suitable for a first course for undergraduate students. The aim is to present the fundamentals of linear algebra in the clearest possible way; pedagogy is the main consideration. Calculus is not a prerequisite but there are clearly labeled exercises and examples which can be omitted without loss of continuity for students who have studied calculus. Technology also is not required but for those who would like to use MATLAB, Maple or Mathematica or calculators with linear algebra capabilities, exercises are included at the ends of chapters that allow for further exploration using those tools.

John Calvin's Commentaries On Jonah, Micah, Nahum John Calvin, 2012 This is the extended and annotated edition including an extensive biographical annotation about the author and his life, an interactive table of contents, perfect formatting for electronic reading devices. Calvin produced commentaries on most of the books of the Bible. His commentaries cover the larger part of the Old Testament and all of the New excepting Second and Third John and the Apocalypse. His commentaries and lectures stand in the front rank of Biblical interpretation. CONTAINED in this Volume are the Writings of three Prophets and they are explained and elucidated in the Author's peculiar manner, every sentence being dissected and examined and the meaning ascertained according to the context without the introduction of any extraneous matters. The main object throughout seems to have been to exhibit the genuine sense and design of the Sacred Writers. The Book of JONAH is a plain narrative and no part is supposed to have been written in the style of poetry except the prayer in the second chapter. The next Prophet is MICAH and his Book is especially interesting on account of the prediction it contains of the birth place of our Savior and also of the establishment of his Kingdom and the spread of his Gospel. The Prophet NAHUM has but one subject the FALL OF NINEVEH and he keeps to his subject without diverging to any other.
