Jon Wertheim, Sam Sommers, 2017-02-07 This is Your Brain on Sports is the book for sports fans searching for a deeper understanding of the games they watch and the people who play them Sports Illustrated executive editor and bestselling author L. Jon Wertheim teams up with Tufts psychologist Sam Sommers to take readers on a wild ride into the inner world of sports Through the prism of behavioral economics neuroscience and psychology they reveal the hidden influences and surprising cues that inspire and derail us on the field and in the stands and by extension in corporate board rooms office settings and our daily lives In this irresistible narrative romp Wertheim and Sommers usher us from professional football to the NBA to Grand Slam tennis from the psychology of athletes self-handicapping their performance in the boxing ring or the World Series to an explanation of why even the glimpse of a finish line can lift us beyond ordinary physical limits They explore why Tom Brady and other starting NFL quarterbacks all seem to look like fashion models why fans of teams like the Cubs Mets and any franchise from Cleveland love rooting for a loser why the best players make the worst coaches why hockey goons and fans would rather fight at home than on the road and why the arena t-shirt cannon has something to teach us about human nature In short this book is an entertaining and thought provoking journey into how psychology and behavioral science collide with the universe of wins and losses coaching changes underdogs and rivalry games Boston Globe Best Books of 2016 Sports New Narratives Ruth E. Page, Bronwen Thomas, 2011-12-01 Just as the explosive growth of digital media has led to ever expanding narrative possibilities and practices so these new electronic modes of storytelling have in their own turn demanded a rapid and radical rethinking of narrative theory This timely volume takes up the challenge

deeply and broadly considering the relationship between digital technology and narrative theory in the face of the changing landscape of computer mediated communication New Narratives reflects the diversity of its subject by bringing together some of the foremost practitioners and theorists of digital narratives It extends the range of digital subgenres examined by narrative theorists to include forms that have become increasingly prominent new examples of experimental hypertext and contemporary video games The collection also explicitly draws connections between the development of narrative theory technological innovation and the use of narratives in particular social and cultural contexts Finally New Narratives focuses on how the tools provided by new technologies may be harnessed to provide new ways of both producing and theorizing narrative Truly interdisciplinary the book offers broad coverage of contemporary narrative theory including frameworks that draw from classical and postclassical narratology linguistics and media studies

Huppertz,2025-04-03 Covering 2001 to today

Designing Retail Experience in the 21st Century presents readers with a critical cross disciplinary perspective on retail

design bringing together scholarship from design architecture branding cultural studies and social studies Our retail experience has changed profoundly over the past two decades largely due to the impact of digital technologies While the rise of smartphones and online commerce threatened to displace bricks and mortar stores physical shopping has survived and in some cases thrived Today the most successful brands design experiences that engage customers both within the physical store and in the digital realm In this book D J Huppertz analyses how corporations design these experiences how we interact with them and how they align with broader social cultural and economic changes Eight case studies reveal how some of the largest global retail chains including Apple Amazon Nike Zara IKEA and LEGO and smaller chains such as Aesop and Gentle Monster utilize design to create engaging experiences Unlike in the past such corporations consider design in a continuum that extends from architecture and interiors to product and service design and from website and digital interactions to social media At the intersection of design and cultural studies this book provides a critical survey and understanding of design and retail experience in the 21st century

Experiencing Immersion in Antiquity and Modernity Emma Cole, 2025-07-10

This book examines the links between experiencing immersion in antiquity and modernity Immersive experiences are big business within today's creative economy Forms range from immersive museum exhibitions theatrical performances art installations and experiences facilitated through virtual and augmented reality technologies Yet the idea of immersion is not new paintings sculpture and theatre have all been theorised historically in terms of illusion realism and immersion From antiquity to modernity there has been an interest in theorising the relationship between reality and virtual realities and in contemplating whether feeling present in an alternate universe is a sought after experience or something problematic and dangerous The chapters in this volume explore the warnings against immersion voiced by Plato and embodied in the figure of the Homeric sirens contrasted with the pro immersion perspectives championed by Aristotelian mimesis and embodied in the concept of enargeia The volume also examines the integration of the ancient world into immersive novels games museum exhibitions and theatrical performances Practice as Research contributions explore the benefits of this synergy from practitioner perspectives Contributors from diverse fields including classical reception studies art history game studies heritage studies and theatre studies approach the interplay between antiquity and modernity from varied standpoints Together they uncover previously unforeseen connections across disciplines and lay the groundwork for future research and additional classically inflected immersive experiences
