This unique book illustrates the structure of the fascia in the living human being Dr Guimberteau s photographs provide a detailed account of fascial architecture He is the first person to publish video movies showing the structure of the fascia and how the fascia responds to it The accompanying text explains what the photographs mean clarifies the importance of the fascia and sets out the implications of these findings for everyday therapeutic practice This beautifully illustrated book provides an introduction to Dr Guimberteau s groundbreaking work Based on what can be seen he has developed his own concept of the multifibrillar structural organisation of the body wherein the microvacuole is the basic functional unit His films confirm the continuity of fibres throughout the body thereby seeming to confirm the tensegrity theory which provides the basis of many manual therapy and bodywork teachings His work ties in with that of Donald Ingber on tensegrity within the cytoskeleton and adds to the evidence linking the cytoskeleton to the extracellular matrix as described by James Oschman The book provides for the first time an explanatory introduction and explanation of these theories This material will be highly valued by osteopaths massage therapists chiropractors and others as it provides part of the scientific underpinning of their techniques as well as an explanation of what is happening when they use those techniques to treat their clients So Guimberteau s material confirms what manual therapists already believed but didn t fully understand He has provided an explanation of how fascial layers slide over each other and how adjacent structures can move independently in different directions and at different speeds while maintaining the stability of the surrounding tissues **Musical Digest** ,1924 *"The" Athenaeum* ,1874 **The Christian Observer** ,1803 *InfoWorld* ,1989-09-11 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects
