Mertler,2019-02-06 Comprehensive overview of the theoretical conceptual and applied practical presentations of action research as it is found and conducted solely in educational settings The Wiley Handbook of Action Research in Education is the first book to offer theoretical conceptual and applied practical presentations of action research as it is found and conducted solely in educational settings Covering primarily PK 12 educational settings the book utilizes a cross section of international authors and presentations to provide global perspectives on action research in education Part I of The Wiley Handbook of Action Research in Education focuses on various foundational aspects and issues related to action research Part II is centered on chapters that present theories and principles that help to guide the use of action research in educational contexts Part III focuses on specific applications of educational action research in practice Part IV provides an outlet for seven educational practitioners to share their experiences in conducting action research Each of these authors also discusses the importance and value that action research has had on him or her both professionally and personally Discuss action research in PK 12 as well as in higher education settings The first book to focus on the importance and application of action research exclusively in educational settings Offers world perspectives on action research in education Written by a team of international scholars The Wiley Handbook of Action Research in Education is an excellent book for advanced undergraduate students graduate students and scholars studying and or researching educational action research Handbook of Obstetric Emergencies (Second Edition) DR GUNASEGARAN RAJAN,DR MUNISWARAN GANESHAN,DR TANG BOON NEE,DR THANEEMALAI JEGANATHAN,2025-03-01 We are delighted to present the second edition of this Handbook in Obstetric Emergencies The first edition had 3 reprints with almost 3 000 copies sold both in Malaysia and overseas The Mandarin version has sold close to 1 000 copies in China We have kept the preface to the first edition as it still captures the essence of the content This updated handbook has revised content on most of the chapters incorporating new guidelines and evidence to ensure you have the most recent information at hand These guidelines are sourced from the leading health organisations and the global obstetrics and gynaecology societies The chapters have been critically reviewed by leaders in the field to whom we extend our gratitude Some of the topics have been redesigned to

appear in the appendix to align with the curriculum that is being conducted at the onsite Intensive Course in Obstetric Emergencies ICOE This handbook serves as an indispensable resource for all the participants at the course and is complemented by videos and podcast via the QR code embedded in the chapters The handbook has a design make over with softer tones to provide a more appealing appearance It is true that there are an abundance of digital resources available for obstetric emergencies We argue that there is still an enduring place for physical handbook for ease and quick reference of important information during emergencies It is sad that the recent WHO data show mothers still die in childbirth and it is hoped this handbook will be a useful resource to obstetricians and midwives as it endeavours to provide a clear medical approach during critical moments in childbirth Project Management by ICB4 - IPMA Bert Hedeman, Roel Riepma, 2023-09-21

IPMA observes an increasing number and importance of projects in business public and people's lives also known as projectification In the world of globalisation an increasing number of organisations are working project based to cope with the challenges of modern times Especially now society is on the brink of such significant changes as global warming and artificial intelligence Projects drive the development of new products and services expansions new capabilities implementation of new strategies and new generations of infrastructure and major maintenance and upgrade of existing facilities and infrastructure This book provides a knowledge base for developing individual competencies for managing projects as described in the IPMA Individual Competence Baseline version 4 which encompasses Perspective competencies People competencies Practice competencies As projects become increasingly important we must continue to realise that projects begin and end with people and that their competent performance within the broader context of the environment is at the heart of any successful project In this book theories and practices for all ICB4 competencies are described They are logically sequenced explained and enriched with practical approaches which can be learned and applied in the daily project management practice As such it aligns entirely with IPMA's vision to strengthen competence across society to enable a world in which all projects succeed This book also supports obtaining an IPMA certificate as proof of your competence in projects

Project Portfolio Management Strategies for Effective Organizational Operations Romano, Luca, 2017-01-30 Continuous improvements in project portfolio management have allowed for optimized strategic planning and business process improvement This not only leads to more streamlined processes methods and technologies but it increases the overall productivity of companies Project Portfolio Management Strategies for Effective Organizational Operations is a key resource on the latest advances and research regarding strategic initiatives for portfolio and program management Highlighting multidisciplinary studies on value creation portfolio governance and communication and integrated circular models this publication is an ideal reference source for professionals researchers business managers consultants and university students in economics management and engineering **Valuing forest ecosystem services: a training manual for planners and project developers** Food and Agriculture Organization of the United Nations, 2019-02-28 The

degradation of ecosystems including forests and the associated loss of biodiversity particularly due to human induced threats and climate change has gained increased attention from scientists and policymakers The Millennium Ecosystem Assessment presented a new conceptual framework that puts ecosystem services at the centre and links human well being to the impacts on ecosystems of changes in natural resources The Economics of Ecosystems and Biodiversity initiative drew further attention to the economic benefits of conserving ecosystems and biodiversity supporting the idea that economic instruments if appropriately applied developed and interpreted can inform policy and decision making processes Only a few ecosystem services however have explicit market value and are traded in open markets many especially those categorized as having passive use value remain invisible and are rarely accounted for in traditional economic systems The failure to appropriately consider the full economic value of ecosystem services in decision making enables the continued degradation and loss of ecosystems and biodiversity Most ecosystem services are considered public goods and tend to be overexploited by society Many methods have been applied to the economic valuation of ecosystem services The use of these methods as well as the interpretation of their results requires familiarity with the ecological political normative and socio economic context and the science of economics Recognizing demonstrating and capturing the value of ecosystem services can play an important role in setting policy directions for ecosystem management and conservation and thus in increasing the provision of ecosystem services and their contributions to human well being The aim of this manual is to enhance understanding of ecosystem services and their valuation The specific target group comprises governmental officers in planning units and field level officers and practitioners in key government departments in Bangladesh responsible for project development including the Ministry of Environment and Forests and its agencies Most of the examples and case studies presented herein therefore are tailored to the Bangladesh context but the general concepts approaches and methods can be applied to a broad spectrum of situations This manual focuses on valuing forest related ecosystem services including those provided by trees outside forests It is expected to improve valuation efforts and help ensure the better use of such values in policymaking and decision making Among other things the manual explores the basics of financial mathematics e g the time value of money discounting cost benefit analysis and profitability and risk indicators the main methods of economic valuation examples of the valuation of selected ecosystem services and inputs for considering values in decision making
