considered creative greatly benefited from Harris encouragement and often generous practical help many of them have been interviewed for this book In the lives of some Canadians harris still functions as a gurulike guide a role he was quite content to take on during his own lifetime because of the spiritual content of his art and aesthetic writings and the example of his optimistic vigorous and apparently untroubled life But Harris was not an untroubled life and *Light for a Cold Land* examines his personal crises and difficulties some of which caused important changes in his art The book also uncovers the painting styles artistic tensions and cultural dynamics of the German milieu in which Harris received his only formal art education His student years in Berlin profoundly influenced not only his art but also his artistic politics and his philosophy It is ironic that in the art of this most articulate of Canadian nationalist painters there are extensive German influences *Light for a Cold Land* is the first art historical study of Lawren Harris that attempts to explore his life and all aspects of his career It is based on extensive work in archives libraries public art galleries and private collections in Canada as well as research in Germany and interviews with members of Harris family and many of his friends acquaintances colleagues and critics [A Reader's Guide to Contemporary Literature](#) William Swan Sonnenschein,1895

Research Methods for International Human

Rights Law Damian Gonzalez-Salzberg,Loveday Hodson,2019-06-13 The study and teaching of international human rights law is dominated by the doctrinal method A wealth of alternative approaches exists but they tend to be discussed in isolation from one another This collection focuses on cross theoretical discussion that brings together an array of different analytical methods and theoretical lenses that can be used for conducting research within the field As such it provides a coherent accessible and diverse account of key theories and methods A distinctive feature of this collection is that it adopts a grounded approach to international human rights law through demonstrating the application of specific research methods to individual case studies By applying the approach under discussion to a concrete case it is possible to better appreciate the multiple understandings of international human rights law that are missed when the field is only comprehended through the doctrinal method Furthermore since every contribution follows the same uniform structure this allows for fruitful comparison between different approaches to the study of our discipline **The Eclectic Review** Samuel Greatheed,Daniel Parken,Theophilus Williams,Josiah Conder,Thomas Price,Jonathan Edwards Ryland,Edwin Paxton Hood,1811
