argument that we live in a post racial society with supposedly new Jewish characters emerging on the big screen this book details how traditional racial stereotypes of American Jews persist in popular films from the first decade of this century In clear and readable prose the book offers an innovative and penetrating look at dozens of American Jewish meddling matriarchs neurotic nebbishes pampered princesses and scheming scumbags from 21st century film whether Hollywood blockbusters like Meet the Fockers and Sex and the City or indie favorites like Garden State and Kissing Jessica Stein Throughout the book famous American Jewish characters played by the likes of Jim Carrey Tom Cruise Anne Hathaway Kate Hudson Scarlett Johansson Sarah Jessica Parker Adam Sandler and Ben Stiller are discussed with the ultimate conclusion that movies today are marked less by the emergence of new Jews than by the continued but dynamic and transformed presence of the same old stereotypes

Does God Make the Man? Stewart M. Hoover,Curtis D. Coats,2015-10-02 Many believe that religion plays a positive role in men s identity development with religion promoting good behavior and morality In contrast we often assume that the media is a negative influence for men teaching them to be rough and violent and to ignore their emotions In *Does God Make the Man* Stewart M Hoover and Curtis D Coats draw on extensive interviews and participant observation with both Evangelical and non Evangelical men including Catholics as well as Protestants to argue that neither of these assumptions is correct Dismissing the easy notion that media encourages toxic masculinity and religion is always a positive influence Hoover and Coats argue that not only are the linkages between religion media and masculinity not as strong and substantive as has been assumed but the ways in which these relations actually play out may contradict received views Over the course of this fascinating book they examine crises contradictions and contestations crises about the meaning of masculinity and about the lack of direction men experience from their faith communities contradictions between men s religious lives and media lives and contestations among men s ideas about what it means to be a man The book counters common discussions about a crisis of masculinity showing that actual men do not see the world the way the crisis talk has portrayed it and interestingly even Evangelical men often do not see religion as part of the solution **Rape Culture, Gender Violence, and Religion**

My Own Private Germany Eric L. Santner, 1997-12-15 In November 1893 Daniel Paul Schreber recently named presiding judge of the Saxon Supreme Court was on the verge of a psychotic breakdown and entered a Leipzig psychiatric clinic He would spend the rest of the nineteenth century in mental institutions Once released he published his *Memoirs of My Nervous Illness* 1903 a harrowing account of real and delusional persecution political intrigue and states of sexual ecstasy as God's private concubine Freud's famous case study of Schreber elevated the *Memoirs* into the most important psychiatric textbook of paranoia In light of Eric Santner's analysis Schreber's text becomes legible as a sort of nerve bible of fin de siècle preoccupations and obsessions an archive of the very phantasms that would after the traumas of war revolution and the end of empire coalesce into the core elements of National Socialist ideology The crucial theoretical notion that allows Santner to pass from the private domain of psychotic disturbances to the public domain of the ideological and political genesis of Nazism is the crisis of investiture Schreber's breakdown was precipitated by a malfunction in the rites and procedures through which an individual is endowed with a new social status his condition became acute just as he was named to a position of ultimate symbolic authority The *Memoirs* suggest that we cross the threshold of modernity into a pervasive atmosphere of crisis and uncertainty when acts of symbolic investiture no longer usefully transform the subject's self understanding At such a juncture the performative force of these rites of institution may assume the shape of a demonic persecutor some other who threatens our borders and our treasures Challenging other political readings of Schreber Santner denies that Schreber's delusional system his own private Germany actually prefigured the totalitarian solution to this defining structural crisis of modernity Instead Santner shows how this tragic figure succeeded in avoiding the totalitarian temptation by way of his own series of perverse identifications above all with women and Jews
