Environmental Security: Environmental change, national security and the conflict cycle Richard A. Matthew, 2015

Handbook of Energy and Environmental Security Muhammad Asif, 2022-05-10 Handbook of Energy and Environmental Security educates the reader about the wider dimensions of the distinctive yet intertwined subjects of energy security and environmental security. The book uniquely addresses these two increasingly important topics in a comprehensive and composite manner describing the concepts and wider dimensions of energy and environmental security in technological, economic, social and geopolitical perspectives. Divided into three main parts, the book deals with the subject of energy security in terms of its concepts, broader dimensions and allied issues; focuses on environmental security and covers subjects in a cohesive manner discussing their important interfaces and commonalities. Providing valuable scholarship for academics, researchers and analysts in the fields of energy and the environment and using case studies to illustrate national and international levels, this is a valuable resource for energy and environmental security challenges, especially in the areas of sustainable development and climate change. Discusses the critical subjects of energy security and environmental security in a composite manner. Incorporates up to date data, case studies and comparative assessments. Energy and environmental policy frameworks are covered from the perspective of both developed and developing countries.

Environmental Security Richard A. Matthew, 2015. The literature compiled in this four volume collection explores the real and potential linkages between environmental change and security. Early formulations of environmental security date to antiquity whilst contemporary formulations of environment conflict peace linkages grew in part from the environmental movement of the 1960s and 1970s. The ensuing flood of academic enquiry has been diverse and extensive and the objective of this major work is to organize this important but polysemous literature in order to provide a comprehensive

Environmental Security in Africa Elisha Jasper Dung, Leonard Sitji Bombom, Augustine Avwunudiogba, 2024-08-19. Environmental Security in Africa: Conflicts, Politics and Development investigates the nature, scope and dimension of environmental security in Africa from a multidisciplinary perspective to examine the history, theories, spatial patterns, sociocultural, socioeconomic consequences and legal ramifications of Africa's environmental concerns. This book is grounded in theories that cut across the social, behavioral and environmental sciences, arguing that environmental security is a multifaceted subject intricately linked to global climate change and magnified by globalization. Drawing from case studies across different parts of Africa, Elisha Jasper Dung, Leonard Sitji Bombom, Augustine Avwunudiogba and the contributors argue that the integral part of the solution to Africa's environmental security issues are entrenched in victims' local, regional, social, cultural, political and economic circumstances in specific geographical locations such as Nigeria, Northeast Africa, Kenya and South Sudan. Comprised of 17 chapters, this book

provides a unique perspective that facilitates understanding the complex problem of environmental security and its sundry ramifications for scholars and policymakers

Fact and Fiction in Global Energy Policy Benjamin K. Sovacool, Marilyn A. Brown, Scott V. Valentine, 2016-04-29 A balanced examination of global energy issues Energy sustainability and climate change are two of the greatest challenges facing humankind Unraveling these complex and interconnected issues demands careful and objective assessment Fact and Fiction in Global Energy Policy aims to change the prevailing discourse by examining fifteen core energy questions from a variety of perspectives demonstrating how for each of them no clear cut answer exists Is industry the chief energy villain Can we sustainably feed and fuel the planet at the same time Is nuclear energy worth the risk Should geoengineering be outlawed Touching on pollution climate mitigation and adaptation energy efficiency government intervention and energy security the authors explore interrelated concepts of law philosophy ethics technology economics psychology sociology and public policy This book offers a much needed critical appraisal of the central energy technology and policy dilemmas of our time and the

impact of these on multiple stakeholders *Security in International Climate Policy* Zehra Askinsena Ilkilic, 2024-11-18 The impacts of climate change are increasingly felt worldwide affecting every country regardless of geographical location Over the past 50 years numerous treaties have been produced that are aimed at combatting climate change However these international efforts have often been hindered by the actions of great powers prioritising their own interests over global solutions Since security is one of the most determining factors in states decision making *Security in International Climate Policy* analyses the relationship between states security policies and their efforts against climate change The book hypothesises that security policies negatively affect measures against climate change While the security policies of great powers pose a hurdle for a successful climate policy in the first stages of efforts there is a shift in the 21st century when climate change itself begins to threaten the security of states Based on these findings the author predicts future policy trends and makes policy recommendations *Responding to Environmental Conflicts: Implications for Theory and Practice* Eileen Petzold-Bradley, Alexander Carius, Árpád Vincze, 2012-12-06 A comprehensive tour d horizon of the debate on the environment and security focusing on the various policy options for building peace and preventing environmental conflict Experts from the areas survey the key environmental challenges in Eastern and Central European states and those of the former Soviet Union extending the debate to such regions as the Balkans the Black Sea and Central Europe This is the first time such extensive case study research has been reported for these regions Both practical and theoretical approaches to the debate are presented within a multi disciplinary framework the contributors ranging from academic experts involved with peace and conflict research to actual policy makers active in the fields of environmental and security policy Readership Experts already working in the relevant disciplines both academic and governmental as well as those seeking an introduction to the various policy fields A graduate level study text excellent survey for policy makers and an academic contribution to ongoing studies *Routledge Handbook of African Security* James Hentz, 2013-08-22 This new Handbook examines the issues challenges and debates surrounding the problem of security in Africa Africa is home to most of the world s current conflicts and security is a key issue However African security can only be understood by employing different levels of analysis the individual human security the state national state security and the region regional international security Each of these levels provides analytical tools for understanding what could be called the African security predicament and these debates are animated by the new security issues immigration small arms transfers gangs and domestic crime HIV AIDS transnational crime poverty and environmental degradation African security therefore not only presents concrete challenges for international security but provides a real world context for challenging conventional conceptions of security Drawing together contributions from a wide range of key thinkers in the field the *Routledge Handbook of African Security* engages with these debates and is organized into four parts Part I The African security predicament in the twenty first century Part II Understanding conflict in Africa Part III Regionalism and Africa Part IV External influences This Handbook will be of great interest to students of

African politics human security global security war and conflict studies peacebuilding and IR in general *Nils Petter Gleditsch: Pioneer in the Analysis of War and Peace* Nils Petter Gleditsch, 2015-07-18 This book presents Nils Petter Gleditsch a staff member of the Peace Research Institute of Oslo PRIO since 1964 a former editor of the Journal for Peace Research 1983 2010 a former president of the International Studies Association 2008 2009 and the recipient of several academic awards as a pioneer in the scientific analysis of war and peace This unique anthology covers major themes in his distinguished career as a peace researcher An autobiographical critical retrospective puts his work on conflict and peace into a broader context while a comprehensive bibliography documents his publications over a period of nearly 50 years Part II documents his wide ranging contributions on globalization democratization and liberal peace on international espionage environmental security climate change and conflict and on the decline of war and more generally of violence as a tool in conflict *Globalisation, Poverty and Conflict* Max Spoor, 2005-12-29 Is development pass Is it merely a by product or a trickle down effect of economic growth spurred by globalisation Will poverty simply diminish with increased global markets This state of the art critical development reader deals with these and related questions Globalisation Poverty and Conflict examines the inter relationships between globalisation poverty and conflict It complements current debates in the field of development studies and in an era in which development fatigue seems to have become more profound than ever before it brings the importance of development once again to the forefront Achieving the Millennium Development Goals by 2015 is a concrete target which many governments have agreed to work towards Whether these goals can be realised is another issue Nonetheless the Millennium Development Goals have brought more focused attention to development in the past few years and renewed debate about the relationships between the process of globalisation and widespread poverty and the emergence of violent conflicts The authors in this edited volume discuss these inter related and highly controversial topical elements of development in a number of chapters organised around three sets of issues 1 globalisation inequality and poverty 2 governance civil society and poverty and 3 resource degradation institutions and conflict The contributions represent current thinking on and practice of development policy poverty reduction the need for multi level democratic institutions and the containing and prevention of conflicts The authors confront the predominant mainstream ideas on development and propose alternatives The chapters written by a select group of scholars and development practitioners will be of direct interest to those involved in this field of social sciences and in development practice but they are composed in such a way as to remain accessible for the generally interested reader Global Food Security Governance Jessica Duncan, 2015-03-24 In 2007 8 world food prices spiked and global economic crisis set in leaving hundreds of millions of people unable to access adequate food The international reaction was swift In a bid for leadership the 123 member countries of the United Nations Committee on World Food Security CFS adopted a series of reforms with the aim of becoming the foremost international inclusive and intergovernmental platform for food security Central to the reform was the inclusion of participants including civil society

and the private sector across all activities of the Committee Drawing on data collected from policy documents interviews and participant observation this book examines the re organization and functioning of a UN Committee that is coming to be known as a best practice in global governance Framed by key challenges that plague global governance the impact and implication of increased civil society engagement are examined by tracing policy negotiations within the CFS in particular policy roundtables on smallholder sensitive investment and food price volatility and negotiations on the Voluntary Guidelines on the Responsible Governance of Tenure of Land Fisheries and Forests in the Context of National Food Security and the Global Strategic Framework for Food Security and Nutrition The author shows that through their participation in the Committee civil society actors are influencing policy outcomes Yet analysis also reveals that the CFS is being undermined by other actors seeking to gain and maintain influence at the global level By way of this analysis this book provides empirically informed insights into increased participation in global governance processes

Environmental Securitisation in India and China Joe Thomas Karackattu, Justin Joseph, Ramnath Reghunadhan, 2025-02-27 This book examines how emerging environmental challenges are situated within existing International Relations IR theoretical understandings of security As governments in the Global South undertake policy interventions to mitigate the impact of increasing climatic changes and yearn to achieve human nature harmony one can observe similar patterns of responses chiefly due to the ecology economy dichotomy in these states and their societies In this context it brings to the readers various aspects of the theory and practice of state interventions in the form of environmental securitisation in the Global South majorly under four themes encompassing theory and policy processes Chapters in this volume explicate connections between the environment and International Relations Theory securitisation in developing countries state society and the environment in India and China and lastly public participation and environmental policymaking It presents a comprehensive and coherent overview of the politics of securitisation in India and China two prominent economies in the Global South Faculty and researchers who work on non western International Relations theory and non traditional security threats policy practitioners and experts in environmental policymaking and students of IR and Comparative Politics chiefly will benefit from this book
