*The Battle of the Golden Spurs (Courtrai, 11 July 1302)* J. F. Verbruggen, 2002 Flemish townspeople defeat the cream of French nobility and explode the myth of knightly invincibility for ever Discussion of bias in sources and difficulties of interpretation preface careful account of what actually happened during the three hour battle On 11 July 1302 below the town walls of Courtrai the most splendid army of knights in Christendom the flower of the French nobility was utterly defeated by Flemish rebels common workers and peasants The French knights products of a lifetime s training were ably led but so too were the Courtrai townspeople in addition to being well armed and their victory despite their lack of military skills and golden spurs put an end to the enduring myth of the invincibility of the knight A French explanation of the terrible defeat was immediately given intended to save the honour and pride of the French nobility in Flanders the victory was glorified as a just reward for the bravery of the townsmen and the competence of their commanders Unfortunately there were no impartial witnesses Any account of the battle must therefore pay careful attention to the personalities of the chroniclers their nationality and their political and social leanings as well as their personal sympathies Verbruggen s study is prefaced by discussion of the problems of reconstruction and extensive consideration of the sources showing the difficulties faced by medieval military historians in attempts to interpret them He then offers his own account of the events of that dramatic day a case study in the reconstruction of events in one of the greatest battles of the middle ages J F VERBRUGGEN lectured at the Royal Military School in Brussels and then taught in Africa retiring as Professor of History University of Congo and University of Bujumbura Burundi He is also the author of *The Art of Warfare in Western Europe* Originally published in Dutch in 1954 translated and updated

**Famous Battles and How They Shaped the Modern World** Beatrice

Heuser, Athena S. Leoussi, 2018-08-30 Why are some battles remembered more than others? Surprisingly it is not just size that matters nor the number of dead, the decisiveness of battles or their effects on communities and civilisations. It is their political afterlife, the multiple meanings and political uses attributed to them that determines their fame. This ground-breaking series goes well beyond military history by exploring the transformation of battles into sites of memory and meaning. Cast into epic myths of the fight of Good against Evil, of punishment for decadence or reward for virtue, of the birth of a nation or the collective assertion against a tyrant, the defence of Civilisation against the Barbarians, Christendom against the Infidel, particular battles have acquired fame beyond their immediate contemporaneous relevance. The epic battles of European history examined in this first volume range from the siege of Troy and the encounters of Marathon and Thermopylai to the wars of the Israelites which inspired the way many later battles would be narrated and from the triumphs and defeats of the Roman Empire to Hastings, the massacre of Bziers and the battle of Courtrai. In each chapter the historical events surrounding a battle form the backdrop for multi-layered interpretations which consciously or unconsciously carry political agendas.

*Dante's Performance* Francesco

Ciabattoni, 2024-08-06 Through an historical and philological lens, this book explores passages from Dante's *Commedia* which reveal elements inspired by processions, pageants, liturgical drama, psalm singing or dance performance. The sacred poem finds influence in medieval theories of the performing arts as well as actual performances which Dante would have seen in churches or town squares. *Dante's Performance* opens a new perspective from which to consider the *Commedia*. Dante expected his contemporary readers to recognize references to and echoes of psalms, sacred plays and performative practices. Twenty-first century readers are tasked with reconstructing a cultural framework which allows us to grasp those same textual references. From the dramatization of the harrowing of hell in *Inferno IX* to Beatrice's celebratory return on top of

Mount Purgatory to the songs of the blessed this study connects Dante's language to coeval theoretical and practical texts about performance. If hell is the Middle Ages' theatrum diaboli, purgatory stages a performed purification through songs and acting while paradise offers the spectacle of blessed spirits within the heavenly spheres as an aid to human understanding. **New Perspectives on Middle English Texts** Susan Powell, Jeremy J. Smith, 2000 This collection of essays by experts in the field on major late Middle English texts concentrates on the alliterative tradition particularly Sir Gawain and the Green Knight. In addition there are papers on Chaucer and Henryson. Mood and Cognition in Old Age Lia Fernandes, Huali Wang, 2018-11-30 Improving psychological well-being and cognitive health is now listed as the priority on the healthy aging agenda. Depression and cognitive impairment are great challenges for the elderly population. There have been numerous studies on depression and cognitive impairment and dementia. However the neural correlates of depression and cognitive impairment have not yet been elucidated. With the development of neuroscience and relevant technologies studies on anatomical and functional neural networks, neurobiological mechanisms of mood and cognition in old age will provide more insight into the potential diagnosis, prevention and intervention in depression and cognitive impairment. For example longitudinal neuroimaging studies depicting the trajectories of patterns of structural and functional brain networks of mild cognitive impairment may provide potential imaging markers for the onset of dementia. Population based studies have addressed the potential interaction between mood and cognitive impairment in old age. However there are few studies to explore the potential neural mechanism of the relationship between depression and cognitive impairment in old age. In all of this process the contribution of multiple biological events cannot be neglected particularly the underlying influence of chronic diseases and concomitant polymedication as well as the geriatric conditions like frailty frequently present in this elderly population which also compromise the cognitive function and mood determining depression and conducting to worse outcomes with more morbidity and mortality. *Ulysses and the Irish God* Frederick K. Lang, 1993 This is the most comprehensive and original of the studies dealing with Joyce's response to the idea of God accepted in Ireland and to the sacred images and rituals prevalent there. It shows how in *Ulysses* he undermines and exploits the crucial elements of his rejected faith: how he recalls the omnipotent Father to reveal his artistic powers, the incarnated Son to celebrate his own human images and the consecrated host to imply his hidden spiritual presence. Frederick K. Lang has closely analyzed both Joyce's texts and his sources including important sources previously unidentified. First he reveals that Joyce's transubstantiation of theology and liturgy in *Ulysses* is foreshadowed in his first short story. Thereby setting the Latin Mass in an Irish home Joyce casts doubt upon the Church's ability to transform matter and in his revised version of the story he casts further doubt by including parallels with the Greek liturgy, a rite he regarded as subversive of the Latin Mass. Next Lang reinterprets Joyce's theory of literary art in light of its specific origins in Aquinas and the New Testament and in doing so he

reveals the precise meaning of the term epiphany. He proceeds to demonstrate that the earlier theory including the concept of epiphany underlies the Hamlet theory and that the famous reference to love is linked to God's narcissism and creativity. How the literary artist resembles God is implied not only in the Hamlet theory but in the references to orthodox and heretical views of the Father-Son relation and the Eucharist views that explain Joyce's reincarnation as both Stephen Dedalus and Leopold Bloom. In *Ulysses* the word reincarnation has an additional meaning. Not only does Joyce's soul assume new flesh but so does the Word of God. Along with the feast of Christ celebrated in Ireland on 16 June 1904 the novel assimilates first the Mass then the black mass and finally the Good Friday liturgy. At the end of *Ulysses* Molly Bloom emerges as the genuine christine prophesied on the first page. Joyce's offering of her body, blood and water evokes both the Crucifixion and the Eucharist and thus makes flesh a Gospel read in Irish churches on the day he chose as Bloomsday. This book is lucid and provocative. Free of theory and jargon it not only gives Joyce scholars fresh information and new interpretations but would interest and enlighten any reader of *Ulysses*.
