Stewart,Nancy Chesley,2023-10-10 Hands on lessons can be fun and compelling but when it comes to life science they aren t
always possible practical effective or safe Children can t follow wolves as they hunt elk visit a prehistoric swamp or shrink
down to the size of a molecule and observe photosynthesis firsthand But they can explore a whole world of animals plants
and ecosystems through the pages of beautifully illustrated science themed picture books Perfect Pairs which marries fiction
and nonfiction picture books focused on life science helps educators think about and teach life science in a whole new way
Each of the twenty lessons in this book is built around a pair of books that introduces a critical life science concept and
guides students through an inquiry based investigative process to explore that idea from life cycles and animal environment
interactions to the inheritance of traits and the critical role of energy in our world Each lesson starts with a Wonder
Statement and comprises three stages Engaging Students features a hands on activity that captures student interest
uncovers current thinking and generates vocabulary The heart of the investigative process Exploring with Students spotlights
the paired books as the teacher reads aloud and helps students find and organize information into data tables Encouraging
Students to Draw Conclusions shows students how to review and analyze the information they have collected Bringing high
quality science themed picture books into the classroom engages a broad range of students addresses the Performance
Expectations outlined in the Next Generation Science Standards and supports the goals of the Common Core State Standards
