Read the passages below and count how long you take to read them!

The Wink!

The big day was here. Rosa was in the school orchestra and tonight was the winter concert. It was the first time she would play the piano in front of an audience.

Rosa was worried all day in school. When she got home she had butterflies in her stomach. She was still scared when she left for the concert. Rosa went backstage and peeked out from behind the curtain and watched her friend Sam play his horn. Sam never made a mistake. He looked fine. Then Rosa saw her parents in the third row. Her father caught her eye and winked. Suddenly, Rosa knew she could do it. She would pretend she was playing for just her mom and dad.

Rosa stepped onto the stage. She played her song well. When it was over, Rosa grinned. She winked at her parents and ran off the stage. Rosa's stage fright was over.

First Second Grade Fluency Passages:

Handbook of Response to Intervention Shane R. Jimerson, Matthew K. Burns, Amanda VanDerHeyden, 2007-08-14

Until now practitioners have had access to few detailed descriptions of RTI methods and the effective role they can play in special education The Handbook of Response to Intervention fills this critical information gap In this comprehensive volume more than 90 expert scholars and practitioners provide a guide to the essentials of RTI assessment and identification as well as research based interventions for improving students reading writing oral and math skills *JEBPS Vol 6-N1* Journal of Evidence-Based Practices for Schools, 2005-02-15 The Journal of Evidence Based Practices for Schools is a leader in publishing research to practice articles for educators and school psychologists The mission of this journal is to positively influence the daily practice of school based professionals through studies demonstrating successful research based practices in educational settings As a result the editors are committed to publishing articles with an eye toward improving student performance and outcomes by advancing psychological and educational practices in the schools They seek articles using non technical language that 1 outline an evidence based practice 2 describe the literature supporting the effectiveness and theoretical underpinnings of the practice 3 describe the findings of a study in which the practice was implemented in an educational setting and 4 provide readers with information they need to implement the practice in their own schools in a section entitled Implementation Guidelines The Journal of Evidence Based Practices for Schools differs from other scholarly journals in that it features articles that demonstrate empirically based procedures for readers to apply the practice in their setting

Children's Reading Comprehension and Assessment Scott G. Paris, Steven A. Stahl, 2005-03-23 The volume identifies critical issues and cutting edge research in assessing children s reading comprehension *A Measure of Success* Christine Espin, 2012 Simple in concept far reaching in implementation Curriculum Based Measurement CBM was developed in the 1980s as an efficient way to assess the progress of struggling students including those with disabilities Today there are few areas of special education policy and practice that have not been influenced by CBM progress monitoring The impact of CBM is reflected in recent education reforms that emphasize improvements in assessment and data based decision making Gathering an international group of leading researchers and practitioners A Measure of Success provides a comprehensive picture of the past present and possible future of CBM progress monitoring The book will be instrumental for researchers and practitioners in both general and special education particularly those involved in the rapidly growing Response to Intervention RTI approach an approach used to determine the performance and placement of students with learning difficulties A Measure of Success presents a nuanced examination of CBM progress monitoring in reading math and content area learning to assess students at all levels from early childhood to secondary school and with a wide range of abilities from high and low incidence disabilities to no disabilities This study also evaluates how the approach has affected instructional practices teacher training psychology and school psychology educational policy and research in the United States and beyond

Bear,2013-07-04 This volume unites spelling and word recognition two areas that have largely remained theoretically and empirically distinct Despite considerable advances in the investigation of processes underlying word perception and the acknowledgement of the seminal importance of lexical access in the reading and writing processes to date the development and functioning of orthographic knowledge across both

encoding and decoding contexts has rarely been explored The book begins to fill this void by offering a coherent and unified articulation of the perceptual linguistic and cognitive features that characterize an individual's advancing word orthographic knowledge providing evidence for a common knowledge base underlying spelling in writing and word recognition in reading From a developmental perspective the studies and syntheses presented in this volume blend insights from psychology and language study with those from clinical and classroom observations These insights help explain how individuals from preschool through adolescence develop knowledge of the orthographic system underlying word structure in English and how they apply this knowledge in actual writing and reading contexts Implications are drawn for the assessment and teaching of spelling vocabulary and word analysis from primary through middle grades

Handbook of Reading Disability Research Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers
