- (b) (i) In the finite element analysis of a two dimensional flow using triangular elements, the velocity components u and v are assumed to vary linearly within an element(e) as

$$u(x, y) = a_1 U_i^{(e)} + a_2 U_j^{(e)} + a_3 U_k^{(e)}$$

$$v(x, y) = a_1 V_i^{(e)} + a_2 V_j^{(e)} + a_3 V_k^{(e)}$$

Strong,2012-03-01 Magisterial a frequently surprising treatment of major political thinkers Perspectives on Politics From Plato through the nineteenth century the West could draw on comprehensive political visions to guide government and society Now for the first time in more than two thousand years Tracy B Strong contends we have lost our foundational supports In the words of Hannah Arendt the state of political thought in the twentieth and twenty first centuries has left us effectively thinking without a banister Politics without Vision takes up the thought of seven influential thinkers each of whom attempted to construct a political solution to this problem Nietzsche Weber Freud Lenin Schmitt Heidegger and Arendt None of these theorists were liberals nor excepting possibly Arendt were they democrats and some might even be said to have served as handmaidens to totalitarianism And all to a greater or lesser extent shared the common conviction that the institutions and practices of liberalism are inadequate to the demands and stresses of the present times In examining their thought Strong acknowledges the political evil that some of their ideas served to foster but argues that these were not necessarily the only paths their explorations could have taken By uncovering the turning points in their thought and the

paths not taken Strong strives to develop a political theory that can avoid and perhaps help explain the mistakes of the past while furthering the democratic impulse Confronting the widespread belief that political thought is on the decline Strong puts forth a brilliant and provocative counterargument that in fact it has endured without the benefit of outside support A compelling rendering of contemporary political theory Politics without Vision is sure to provoke discussion among scholars in many fields Journal of Lubrication Technology ,1975 Government-wide Index to Federal Research & Development Reports ,1967 Book Review Digest ,1970 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher Computer Science and Statistics: Proceedings of the 13th Symposium on the Interface W.
