From Here to Eternity: Bruce G Epperly, 2016-03-11 All of humanity lives with the certainty of death In this world we do not live forever But what happens afterward Is there something beyond the grave How should we react to the loss of loved ones whether through an untimely accident or old age With one foot in the world of theological reflection and the other in the untidy nature of daily life and of spirituality in action Dr Bruce Epperly embraces hope while recognizing fear adventure even in lives touched by regret and confidence in the face of uncertainty to help us explore the possibilities a loving God has placed before us We can grieve our loss while looking forward with joy We can acknowledge what we don't know while expecting more than we are able to imagine If you've ever wondered what happens next this is the book for you

From Here to Eternity [sound Recording] James Jones, 1986 James Jones Steven R. Carter, 1998 James Jones's spiritual beliefs were central to his great World War II trilogy From Here to Eternity The Thin Red Line and Whistle as well as to the rest of his fiction In this first book length exploration of the subject Steven Carter argues that Jones's ideas about reincarnation karma and spiritual evolution were heavily influenced by transcendentalism theosophy and Oriental religions The author places Jones in what he identifies as a tradition of American literary Orientalism that includes Emerson Thoreau Kerouac Ginsberg and others Carter bases his argument on extensive research into American literature and criticism coupled with visits and personal correspondence with Jones

James Jones Willie Morris, 1978 He also recounts Jones's race against the clock to finish Whistle the culmination of his World War II trilogy which Morris himself completed after his friend's death in 1977

BOOK JACKET Fiction as History Penny Marie Sonnenburg, 2002 This study examines one of James Jones's novels From Here to Eternity published in 1951 the first book of a three part World War II

trilogy While this is well known this novel is deserving of a closer scrutiny that recognizes its historical importance and significance This study reiterates the importance of an author s individual work especially one of such magnitude resulting in his overnight success From Here to Eternity is much more than a fictionalization of historic events Using the correspondence between the author and his brother that began when James Jones enlisted in 1939 one can recognize several parallels between the author s work and the historic events in the novel The juxtaposition between personal correspondence and the novel allow an understanding of the extent that the novel was a distillation of Jones personality and experience Jones s approach was set out in a letter to Mack Morris in 1957 roughly six years after the publication of From Here to Eternity Everything in your life in everybody s life everything that happened to you or that you saw happen to someone else is a thing to write about if you look at it long enough and study it deeply enough This statement raises the ever present and debatable question of is history science or art He observed and strongly felt that the reliability of experience was the foundation for truth and exposing the truth was the ultimate point of art Closer examination of the novel revealed an understanding of how much an author incorporates his soul into his work His experimental narrative prose was not based on any formal education but based on his own application of artistic license Ironically he felt that fiction must be pieced from real experiences but also contain original emotions that could be disguised in the pages of a novel Analyzing Jones s personal letters interviews and experiences allows one to with some degree of certainty understand that From Here to Eternity is more than merely a famous novel It is an entertaining exposition of not only what military service does to men but also what it emotionally did to James Jones
