### **Textbook and Materials:**

**"Pearson Environmental Science"**

**This class also requires:**

- A notebook for notes
- Pens/pencils
- Loose-leaf paper for classwork
- A calculator

### **Class Description:**

This course will cover the environmental sciences at approximately an 11<sup>th</sup> grade level, with a strong emphasis on field studies, labs, and classroom activities to help students understand and interact with the material as much as possible. The major focuses of the course are ecology, human impact and interaction with the environment, and the politics of environmental science. The curriculum schedule is covered below.

### **Labs:**

Labs will take place once per week, normally on Wednesdays. The purpose of labs is to help students interact with the material in a hands-on fashion, allowing themselves time to test new things and think critically about what we're learning. Labs are worth 15-25 points each and will always be done in groups. I consider labs to be one of the most important parts of this class, so I try to put a lot of work into them. We spend the majority of each week building up to the lab, and the last day of the week reflecting on it.
