Phillipson,Sivanes Phillipson,2020-12-23 Throughout the world the challenges facing modern education are formidable Although some of the challenges facing are unique to each educational jurisdiction there are also some important commonalities that transcend jurisdictions Irrespective of the nature of these challenges there is an increasing focus on teacher quality what it is and how to enhance it To date research tells us what expert teachers should be doing in their classrooms This approach is based on the idea that teaching expertise is nothing more than the accumulation

of specific skills and knowledge and as teachers acquire these skills and knowledge most of our educational challenges can be overcome. This book questions this idea by asking 37 teachers who are already recognised as experts to share their classroom secrets. Importantly the teachers come from diverse cultural contexts including Australia, Finland, Hong Kong and the US and they share how they became expert teachers, their expectations for every student when they enter their classroom, how they view and encourage teacher-parent partnerships and what skills and knowledge they consider important for expert teaching. To our knowledge this is the first book that compares and contrasts the approaches taken by expert teachers from four very different cultural groups. The book helps to demystify the work of the modern teacher, what they do and the challenges they face. If you aspire to be an expert teacher, this book provides a clear model of how to approach the process. If you are an education researcher searching for impact, this book outlines what are some of the emerging hot topics in education research. If you are involved in teacher education, then this book offers some new approaches to initial teacher education. If your focus is on educational policy, this book helps make sense of the links between the classrooms of expert teachers, education research and academic achievement. Finally, this book will help parents understand how best to partner with their child's teacher in order to enhance their learning.
