This manual is a resource for schools already offering the diploma as well as for prospective diploma schools *Perspectives on the IB Diploma Core* Jeff Thompson, Judith Fabian, Mary Hayden, 2019-10-15 The Diploma Programme was the first programme to be devised and implemented by the International Baccalaureate over fifty years ago Since its creation the curriculum upon which the programme is based has been continuously developed to take into account the rapidly changing needs of students schools higher education and employment contexts For much of that time the programme has included three essential components that must be undertaken by students who wish to graduate with the Diploma Theory of Knowledge Extended Essay and Creativity Activity Service CAS Taken together over time these have come to be regarded as a core of the Diploma Programme although they were not described as such at the outset This edited collection is intended to provide input into the current review of the IB Diploma Programme It comprises contributions from experienced authors researchers and practitioners who were invited to reflect upon the nature of the core as it exists at present to raise issues in relation to the future development of the core and to share experience in the learning and teaching of the core components across a wide range of schools in both national and international systems of education Questions concerning the concept of the core as a whole developing students as internationally minded thinkers and the challenges of bringing coherence to the core in establishing a holistic approach to the curriculum underpin the individual chapters throughout Contributors Edward Allanson Tom Brodie John Cannings Christian Chiarenza Mary Donnellan Jenny Gillett Robin Julian Julian Kitching Justin Laleh Ann Lautrette James MacDonald Shona McIntosh Heather Michael Paul Regan John Royce John Sprague George Walker **Schools of Opportunity** Adam York, Kevin Welner, Linda Molner Kelley, 2023 The National Education Policy Center's Schools of Opportunity project was designed to highlight public high schools that are using research based practices for closing opportunity gaps in student learning The project recognizes schools that are working to address the needs of all students regardless of their zip codes or their school's average test scores By embracing a shift away from the nation's myopic focus on standardized test scores the program's focus is on inputs access to equitable exemplary policies and practices that students experience every school day not outcomes This follows from research findings that schools alone cannot fix the problems created by the stark inequalities in our society Instead schools should be expected to do their part by responding to inequities with research based practices The book features case studies of schools that demonstrate key criteria that other schools can emulate such as an inclusive school climate support for language minority students performance based assessment teacher professionalism a commitment to detracking and supports for students in need Schools of Opportunity builds an argument for shifting the way that excellent public high schools are recognized and built Book Features Provides accounts of school reform jointly told by researcher practitioner teams connecting current research with successful efforts of educators to create outstanding learning environments Brings together the voices of principals and school leaders who share stories of how their work has unfolded in their school district and state contexts Identifies the
