Intuition English Edition:

Technologies for Intuition Alaina Lemon, 2018 Cold War paranoia can only partly describe or explain the 20th century dreams of telepathy The nightmare shades of mind control and crowd frenzy have long alternated with the pastels of love and collective effervescence Both extremes materialized over time along tangled circuits of wars events and interactions staged across borders since at least the 19th century The Cold War and its fences fed fascination with the workings and the failures of contact and communication Opposed sides accused each other of jamming media and spinning propaganda even while they mirrored fantasies of connection This book contrasts and connects Russian and American channels and means to check channels with special attention to intersections of the telepathic with the theatrical It theorizes links between historically layered struggles over technologies for intuition and dominant models of communication commonsense or theoretical It demonstrates that theories resting on models of individual sincerity and of dyadic communication warp understandings of the USSR and Russia and thus of the USA as well It proposes that attention to the means of making and checking contact that is to the phatic functions in language offers a way out of the impasses and paradoxes of paranoia Provided by publisher

Abraham Heschel and the Phenomenon of Piety Joseph Harp Britton, 2013-10-24 Piety is often regarded with a pejorative bias a pious person is thought to be overly religious supercilious even Yet historically the concept of piety has played an important role in Christian theology and practice For Abraham Heschel piety describes the contours of a life compatible with God's presence While much has been made of Heschel's concept of pathos relatively little attention has been given to the pivotal role of piety in his thought with the result that the larger methodological implications of his work for both Jewish and Christian theology have been overlooked Grounding Heschel's work in Husserl Dilthey Schiller and Heidegger the book explores his phenomenological method of penetrating the consciousness of the pious person in order to perceive the divine reality behind it The book goes on to consider the significance of Heschel's methodology in view of the theocentric ethics of Gustafson and Hauerwas and the post modern context reflected in the works of Levinas Vattimo Marion and the Radical Orthodoxy movement *Freud's Other Theory of Psychoanalysis* Ahmed Fayek, 2013 Freud's Other Theory of Psychoanalysis The Replacement for the Indelible Theory of Catharsis argues that Freud's familiar theory of psychoanalysis is an elaboration of his catharsis theory Although it changed from repression of painful memories to the repression sexuality to repression of infantile sexuality to repressing of the Id it still remained structurally a theory of the repression of objectionable urges Even in Freud's desperate attempt to replace it with a psychology of the ego the repression of the objectionable urges or the Id remained the source of psychopathology This theory had an indelible effect on Freud and remained the prototype of almost all theories of contemporary psychoanalysis However when Freud changed his method of dealing with his patients to listening to their associations he discovered the workings of the primary process the representation in the mind of the endosomatic stimuli and the manner in which the primary and the secondary processes entwine to form both the normal and

abnormal psychical products Another theory of psychoanalysis came out of those core observations and Freud was able to give psychoanalysis a central position in western culture as a whole and a significant place in the study and treatment of mental disorders Freud's unstated discoveries had all the elements of another full theory it was the theory that gave psychoanalysis its outstanding status However he did not articulate it as a distinct theory that could replace the catharsis theory This tacit theory is a theory that does not explain psychopathology in terms of repression of objectionable urges but explicates the manners of the entwinement of the primary and secondary processes that create the healthy and the psychopathological conditions It is a comprehensive theory of psychoanalysis that has applications in almost all psychical matters one of which is clinical The replacement theory is not another theory like the ones offered by the contemporary schools It is implicit in the Freudian text it is a Freudian replacement for a popular but flawed Freudian theory

The Forerunners Romain Rolland,1920 *Jung and Intuition* Nathalie Pilard,2018-05-15 Jung and Intuition examines for the first time the twelve categories of intuition described in both the works of C G Jung and the post Jungians Nowhere other than in Jung's own work has intuition been more fully treated Each form of intuition is critically explained in the historical context of its appearance and located in one of the four spheres of Jung's psychology the unconscious the subconscious Unterbewusste consciousness and Jungian and post Jungian practice This work brings Jung's entire psychology in all its depth from 1896 to its contemporary use into greater clarity for both professionals and lay readers The author persuasively shows that intuition is at the heart of Jung's psychology It is central to his concept of the archetypes as well as to his understanding of the subconscious and the active imagination It also involves both clinical and philosophical approaches as powerfully demonstrated by his pioneering work at the Burgholzli Klinik in Zurich

Facing the Other Nigel Zimmermann,2016-03-31 What is the significance of the body What might phenomenology contribute to a theological account of the body And what is gained by prolonging the overlooked dialogue between St John Paul II and Emmanuel Levinas Nigel Zimmermann answers these questions through the agreements and the tensions between two of the most important thinkers of the twentieth century John Paul II the Polish pope philosopher and theologian and Emmanuel Levinas the French Jewish philosopher of Lithuanian heritage were provocative thinkers who courageously faced and challenged the assumptions of their age Both held the human person in high regard and did their thinking with constant reference to God and to theological language Zimmermann does not shirk from the challenges of each thinker and does not hide their differences However he shows how they bequeath a legacy regarding the body that we would overlook at significant ethical peril We are called Zimmermann argues to face the other In this moment God refuses a banal marginalisation and our call to responsibility for the other person is issued in their disarming vulnerability In the body philosophy theology and ethics converge to call us to glory even in the paradox of lowly suffering

Poetry, Beauty, and Contemplation John G Trapani,2011 A Thoroughly Engaging and intensive study of Maritain's philosophy of art artwork beauty and contemplation This work does justice to

Maritain's depth as a philosopher. His rigor, erudition, and persuasiveness shine throughout John Trapani's exposition. The reader senses on every page that Trapani is a master of the subject, a sure guide to fresh insights and reflections on Maritain.

Modern Religion, Modern Race Theodore M. Vial, 2016

Religion is a racialized category even when race is not explicitly mentioned. In *Modern Religion, Modern Race*, Theodore Vial argues that because the categories of religion and race are rooted in the post-Enlightenment project of reimagining what it means to be human, we cannot simply will ourselves to stop using them. Only by acknowledging that religion is already racialized can we begin to understand how the two concepts are intertwined and how they operate in our modern world. It has become common to argue that the category religion is not universal or even very old but is a product of Europe's Enlightenment modernization. Equally common is the argument that religion is not an innocent category of analysis but is implicated in colonial regimes of control and as such plays a role in Europe's process of identity construction of itself and of non-European others. Current debates about race follow an eerily similar trajectory: race is not an ancient but a modern construction. It is part of the project of colonialism, and race discourse forms one of the cornerstones of modern European identity making. Why can't we stop using them or re-construct them in less toxic ways? By examining the theories of Kant, Herder, and Schleiermacher among others, Vial uncovers the co-constitutive nature of race and religion, describes how they became building blocks of the modern world, and shows how the two concepts continue to be used today to form identity and to make sense of the world. He shows that while we disdain the racist language of some of the founders of religious studies, the continued influence of the modern worldview they helped create leads us often unwittingly to reiterate many of the same distinctions and hierarchies. Although it may not be time to abandon the very category of religion with all its attendant baggage, *Modern Religion, Modern Race* calls for us to examine that baggage critically and to be fully conscious of the ways in which religion always carries with it dangerous ideas of race.

The Crisis in Psychoanalysis Ahmed Fayek, 2010. The field of psychoanalysis is on the brink of extinction. With the declining numbers of classical analysts, the field has become inundated with mediocre theories, making it difficult to discern what psychoanalysis really is. In *The Crisis in Psychoanalysis*, Dr. Ahmed Fayek traces the destruction of psychoanalysis to the decline of Freudian doctrine and proposes that only through a rediscovery of the core principles that make up of Freudian doctrine—principles that Freud himself did not adequately articulate—can this crisis be resolved. With experience as both a practitioner and a training and supervising analyst, Fayek offers scholars and members of the psychoanalytic community a comprehensive account of the state of the field past and present and paves the way for the rebirth of a lost doctrine.
