

## SETTING THE CONTROLS

### Temperature

- The Refrigerator Temp Control ranges from 33°F to 46°F (1°C to 8°C). Press the Refrigerator Temp button to cycle through the available temperature settings one increment at a time.
- The Freezer Temp Control range is from -6°F to 8°F (-21°C to -13°C). Press the Freezer Temp button to cycle through the available temperature settings one increment at a time.

**NOTE:** When changing control settings, wait 24 hours before making additional adjustments. The controls are set correctly when milk or juice is as cold as you would like and when ice cream is firm. If the temperature in either compartment is too cold or too warm, change the setting one increment at a time. Wait 24 hours for the change to stabilize before adjusting again.

### Airflow

Be sure not to block vents while packing your refrigerator. Doing so will restrict airflow and may cause the refrigerator temperature to become too warm or cause interior moisture buildup. (See air flow diagram below.)

### Dispenser

The dispenser will dispense water, cubed ice or crushed ice. Press the appropriate icon of your choice (①) water (②) cubed ice (③) crushed ice. When pressed the icon will illuminate.

**NOTE:** The dispenser will not work if any door is left open or if the control lock is engaged.

**NOTE:** If the Control Lock icon is illuminated, the Dispenser will not work. Disable the Control Lock to use the Dispenser again.

**CAUTION:** The control display is operated by touch. Excessive moisture on the display may cause a malfunction. Please keep the display clean and dry.
