The Human Mosaic Student Study Guide Michael Kukral, 2005-08-19 The updated Student Study Guide provides a tremendous learning advantage for students using The Human Mosaic "Answer at Once" Katrina M. Powell, 2009-11-11 With the Commonwealth of Virginia's Public Park Condemnation Act of 1928 the state surveyed for and acquired three thousand tracts of land that would become Shenandoah National Park The Commonwealth condemned the homes of five hundred families so that their land could be donated to the federal government and placed under the auspices of the National Park Service Prompted by the condemnation of their land the residents began writing letters to National Park and other government officials to negotiate their rights and to request various services property and harvests Typically represented in the popular media as lawless illiterate and incompetent these mountaineers prove themselves otherwise in this poignant collection of letters The history told by the residents themselves both adds to and counters the story that is generally accepted about them These letters are housed in the Shenandoah National Park archives in Luray Virginia which was opened briefly to the public from 2000 to 2002 but then closed due to lack of funding This selection of roughly 150 of these letters in their entirety makes these documents available again not only to the public but also to scholars researchers and others interested in the region's history in the politics of the park and in the genealogy of the families Supplementing the letters are introductory text photographs annotation and oral histories that further document the lives of these individuals Study Guide for Human Mosaic Terry G. Jordan-Bychkov, Mona Domosh, Roderick P. Neumann, Patricia L. Price, 2009-03-06 Carrying forward the legacy of original author Terry Jordan Bychkov Mona Domosh and new coauthors Roderick Neumann and Patricia Price offer this thoroughly updated new edition of the acclaimed introduction to the cultural geography of the world today The result is a text that maintains its original distinctive style while addressing contemporary issues and situations that students care about most importantly the continuing phenomenon of globalization The Thematic Approach of The Human Mosaic The Human Mosaic introduces five themes in the opening chapter culture region cultural diffusion cultural ecology cultural interaction and cultural landscape then uses those themes as a framework for the topical chapters that follow Each theme is applied to a variety of geographical topics demography agriculture the city religion language ethnicity politics industry folk and popular culture Through this organization students are able to relate to the most important aspects of cultural geography at every point in the text **Studying Peoples in the People's Democracies II** Vintila Mihailescu, Ilia Iliev, Slobodan Naumovic, 2008 Bulgaria and Serbia during socialism are outlined from many different points of view in this volume Beyond local and personal trajectories the authors illuminate more general and comparative questions Was there anything like a socialist anthropology common to all three countries Did Soviet and or Marxist influences in the discipline and in society in general penetrate so deeply as to form an unavoidable common denominator of anthropological practice The answers turn out to be complex and subtle While unifying ideological forces were very strong in the 1950s diversity increased

thereafter Anthropology was entangled with national ideology in all three countries but the evidence nonetheless calls for polyphonic interpretations
